Hector Cat About Town
Notorious Gossip

A Jew was negotiating a loan from his brother, and the latter was willing to make the advance, but demanded nine per cent interest.

"Well," said the borrower, "I ain't complaining, you understand, but what will our poor dead father say when he looks down and sees you taking nine per cent from his own flesh and blood?"

"Don't worry about that," replied the lender: "from where he is it'll look like six per cent."

A man who was in court because he had knocked down and injured a man with his car said in defence that he was only driving at four miles an hour.

Whereupon the lawyer for the motor accident victim countered with:

"Gentlemen of the jury, the driver of the car stated he was going only four miles an hour. Think of it! The long agony of my poor, unfortunate client, the victim, as the car drove slowly over his body."

Eddie Cantor tells this story about a minor operation which he underwent a short time ago.

The surgeon who operated used a local anaesthetic, and Eddie was therefore able to carry on a conversation with him. About half-way through, the proceeding the surgeon asked his patient if he would consent to appear at concert in aid of the hospital.

"You mean when I get well?" queried Eddie.

"I mean if you get well," solemnly replied the surgeon.

Eddie did get well, and the concert was a big success.

Little Smiggs ordered his meal and waited patiently to be served. Half-way through the second course the waiter came quietly to the table.

"Excuse me, sir," he whispered, "but I'd advise you not to hurry with your meal."

"Good gracious!" said little Smiggs, "why shouldn't I?"

"Well, sir," replied the waiter, "you're sitting on a prize-fighter's hat, but he doesn't know it yet."

AUSTRO-GERMAN AGREEMENT

Benefits Stressed
In Vienna

NO COMBINE

Hong Kong Daily Press' Special

Vienna, July 14.

In a broadcast on Tuesday dealing with the Austro-German Agreement, Commissary Adam took the opportunity to dispel the fear expressed in some French papers, that the agreement was the prelude to the creation of a German-Italian, Austrian-Hungarian block. It was certainly a mistake, said Adam, to regard the restoration of friendly and neighbourly relations between Austria and Germany as a step towards the creation of any kind of European Block.

During the last few days it had been declared repeatedly in most authoritative quarters, that the Rome Protocols formed the basis of the Austrian Foreign Policy. These protocols, did not exclude any other state, on the contrary they were intended for the extension of economic and cultural co-operation in Europe, and accordingly no partner to the Protocols had aimed at excluding Germany from participating in the settlement of the Danube Question. It could be nothing but advantageous, if the friendly relations prevailed between Austria and Germany, for such a settlement, all the more since these two states needed unrestricted exchange of goods and ideas and were bound by the ties of race and speech.

FEARS DISPELLED

Referring to the apprehension voiced in some papers that through the agreement Austria's independence would now be really endangered, the speaker stressed that Austria had never conducted any anti-German policy nor would she ever do so in the future. That would be contrary to the nature of the nation which in its constitution explicitly termed itself a German State.

A certain amount of optimism was necessary, concluded Adam, in order to facilitate the consolidation of Europe, in which Austria, a small country in the crossfire of so many conflicting interests, was especially interested. And in this point the Austrian Government was in full sympathy with the foreign policy of the German Government.

PRAGUE PRESS VIEWS

Prague, July 14.

The Austro-German Agreement, although in some quarters considered disadvantageous for Czechoslovakia, on the other hand doubtless results in a number of advantages, says the "Prager Presse," most likely inspired or even dictated by highest officials.

The Paper declares that Czechoslovakia has always considered the Austro-German Conflict a liability and not an asset for itself in the foreign policy and points out that Czechoslovakia has never attempted to increase the tension between Germany and Austria, since she realised that this conflict would naturally be settled sooner or later.

Tattoo your lips!

Here's South Sea glamour for them in five exciting shades

CORAL (Orange)
EXOTIC (Flery)
NATURAL (Blood Color)
PASTEL (Changeable)
HAWAIIAN (Gay)

Vibrant, exciting South Sea color... luscious and appealing instead of "just red"! Transparent and pasteless instead of opaque and pasty. Put it on... let it set... wipe it off. Only the color stays! No pastiness at all. And it's actually softening to lips instead of drying, despite its extreme indelibility. TATTOO your lips! We know you'll like it.

We invite you to test all five shades at the Tattoo Color Selector in our sales goods section

FRONTIER OPERATIONS IN 1935

MEDAL FOR R.A.F. PERSONNEL

(Special Air Mail Service)

London, July 4. The King has commanded that the India General Service Medal with clasp "North West Frontier, 1935" shall be granted, provided the claims are approved by the Air Council, to the personnel of the Royal Air Force who took part in the Loe-Agra operations between February 23, 1935, and April 13, 1935, both dates inclusive.

Individuals previously awarded the medal will receive the clasp only. The grant of the medal or clasp will not be made in respect of visits to the sphere of operations or of service of a temporary nature.

A nominal roll of personnel who were engaged in the operations has been prepared and submitted to the Air Ministry by the A.O.C. R.A.F. India, and all officers and airmen referred to therein will in due course receive a form of application for the medal or clasp from their present C.O. for those still serving in India; direct from the Air Ministry for officers not now serving in India; or from the officer in charge, R.A.F. Records, for airmen not now serving in India.

The will provides on his wife's death, his Field-Marshal's Baton, his Swords, Decorations and his copy of Laurence's account of Palestine Campaign—"Seven Pillars of Wisdom"—shall pass to the Royal United Services Institution.—*British Wireless.*

CLYDE SHIPYARDS BUSY

FURTHER CONTRACTS EXPECTED SOON

Glasgow, June 29.

Clyde shipyards are at present experiencing one of the busiest spells since the post-war slump, and in a number of establishments the summer holiday break is being restricted this year without opposition from the trade unions.

June, with an output of 10 vessels aggregating 29,485 tons, is the second best month of the year. The total output of the river for the current year to date is 48 vessels of 126,502 tons. This tonnage compares with an aggregate of 92,445 tons at the same period last year.

Apart from the prospect of the Queen Mary coming to Clydebank, the outlook for the immediate future is extremely good. Several yards have every building berth occupied, and more tonnage is expected to be placed with local firms within the next few weeks. Four Greek destroyers are to be built on the river, a considerable amount of cargo tonnage will be placed soon, and Clyde yards are fully expecting to be commissioned to build two new Canadian Pacific liners of 22,000 tons each at an early date. The yards at present have almost 70 Naval orders on their books, and the Government's new building programme is expected to add to this number.

SURPRISE VISITS

London, July 14. The King this afternoon paid surprise visits to the British Post Graduate Medical School at Hammersmith and to the London School of Tropical Medicine and Hygiene.—*British Wireless.*

TORTURES CONFIRMED

THE INDIAN CASE

Further Representations To Be Made

London, July 14.

Newspapers comment on the evidence which has reached London from Manchuria of the brutal ill-treatment of the Indian merchant and his family after their arrest at Hsinking on June 7 by Japanese authorities in contravention of British extraterritorial rights. It was not until June 27 that the British Vice-Consul at Mukden was able to see the arrested man and the tortures of which he then learned were renewed subsequently during the continued confinement until the prisoners—against whom the Japanese authorities, it appears, do not now propose to bring any charge—were finally handed over to the British Consul General.

Medical examination at the Consulate confirmed the depositions of the arrested merchant he had been subjected to "water torture" and savagely beaten, and his wife had been beaten across the breasts. The case was brought to the attention of the Japanese Government at the beginning of July by the British Ambassador in Tokyo and it is understood that further representations are under consideration in London.—*British Wireless.*

PRODUCTION OF AMMUNITION

New Post Selected

London, July 14. The Secretary for War announced in the House of Commons to-day that Engineer Vice Admiral Sir Harold Brown, Engineer-in-Chief to the Fleet has been appointed Director General of munitions production, to be responsible for co-ordinating and expediting production of munitions in accordance with the Government's programme for making good accumulated deficiencies in defence services.—*British Wireless.*

DISCUSSIONS CONFIRMED

London, July 14. Continued progress of discussions in Cairo with a view to the negotiation of the Anglo-Egyptian Treaty was confirmed at Commons question time by Lord Cranborne, said they had now reached a point when it has been found possible to set up a Drafting Committee composed of Representatives of both parties.—*British Wireless.*

SCOTS MERCHANT DEAD

Trade With The East And Australia

(Special Air Mail Service)

London, June 28.

Mr Duncan, Willie Paterson, of Abbey Lodge, Regent's London, died yesterday in a London nursing home. He was London chairman of the Bank of Adelaide and a director of a South Australia insurance company. His own firm was Gilman and Co., East India merchants, 116 Cannon Street, London, and he was the founder of Paterson and Co., of Perth, Western Australia.

Mr Paterson was born in Edinburgh in the late 'sixties, and was the son of Duncan Willie Paterson, a solicitor.

His business relationships extended to both hemispheres, and his frequent journeys made him a well-known figure along the main Empire shipping routes. He was a ready verifier and wrote for the press in general.

He was one of a family of seven, among whom was the artist, the late Emily M. Paterson, R.S.W. He leaves a wife and two daughters, and had five grandchildren.

DISHES FRESH AND DELICIOUS FOR LUNCHEON, DINNER OR SUPPER

CUCUMBER AND PINEAPPLE

Dissolve
1 package lime gelatin in
1 cup boiling water. Add
1 cup cold water
2 tablespoons vinegar
1 teaspoon lemon juice and
1 teaspoon salt. Chill. When
slightly thickened add
1 cup diced celery
1 cup thinly sliced quartered
cucumber and
1 cup finely cut pineapple. Turn
into individual moulds or one
large mould and chill in re-
frigerator until firm. Unmould
on lettuce and serve with
mayonaisse. Eight servings.

FROZEN LAMB AND PECAN SALAD

Mix
1 teaspoon mustard
1 teaspoon salt
2 tablespoons sugar and
3 egg yolks (beaten)
Heat
1 cup thin cream slowly in
double boiler and pour over
beaten egg yolks. Replace
double boiler, add
1 cup vinegar and
1 cup lamb broth and cook for
about 10 minutes, until a cus-
tardlike consistency. Remove
and add
1 teaspoon gelatin which has
been soaking in cold water for
5 minutes. Add
1 cup minced lamb and
1 cup chopped pecans. Pour
into mould and chill for three
or four hours. Turn mould on
lettuce cups and serve with
cucumber dressing. Six ser-
vings.

CHINESE CHICKEN SALAD

Mix together thoroughly
1 cup diced pineapple
1 cup blanched browned shred-
ded almonds
1 cup diced chicken
1 teaspoon salt and
Dash of paprika
Whip
1 cup heavy cream and fold in
1 cups sour mayonaisse. Fold
in first mixture and pack into a
refrigerator tray. Freeze
for four hours. Cut in cubes
and serve in centre of a
tomato jelly ring made by
heating
12 cups tomato juice and dissolv-
ing in the liquid
1 tablespoon gelatin—which has
been soaking in
1 cup cold water. Add
12 teaspoons salt
2 tablespoons lemon juice and
chill thoroughly.

BUTTERFLY SALAD

Large grapefruit sections,
Pitted dates,
Stuffed olives,
Red or green peppers,
Lettuce or romaine,
Whipped cream mayonaisse.
Arrange grapefruit sections on
lettuce or romaine so that the
curved edges are opposite each
other, to form wings. Use a date
for the body, thin slices of stuffed
olive for the spots on the wings,
and small, thin strips of a pepper
for the antennae. Serve with
whipped cream mayonaisse.

SHRIMP AND VEGETABLE SALAD

Clean
24 cups shrimp and cut if desired.
Add
1 cups peas
1 cup celery (chopped)
1 to 1 cup chopped sweet pickles
and
1 to 12 teaspoons salt. Toss
lightly together. Moisten with
mayonaisse. Serve in lettuce
cups garnish with slices from
1 hard-cooked egg and sprinkle
with paprika. Chicken may
be substituted.

The housewife was showing her
prospective new maid over the
house. She had been very liberal
with her promises of privileges,
and it looked as though the two
were about to come to a working
agreement. Suddenly the girl
said—

MAYONNAISE SUPREME

Mix
1/2 teaspoon salt
1/2 teaspoon dry mustard
1/2 teaspoon paprika (if desired)
Add
2 teaspoons vinegar (or use
lemon juice if desired) and
mix. Add
1 egg unbeaten. Then slowly
add
1 cup salad oil—a teaspoon at
a time—beating after each
addition. Keep beating with
rotary egg beater during the
making. When about one
third of the oil has been added,
larger amounts may be
added at a time. When all
of the oil has been added,
dressing should be stiff.
If not, add more oil.
If too thick thin with ad-
ditional vinegar. For a richer
dressing add two egg yolks
instead of one whole egg.

GREEN PEPPER AND PINEAPPLE SALAD

Wash
3 medium size green peppers,
cut a slice from top and re-
move all seeds and veins.
Soak
1 teaspoon gelatin in
2 tablespoons pineapple juice
and dissolve in
1 cup boiling water. Add
1 cup crushed pineapple
2 tablespoons chopped nuts
2 tablespoons chopped pimento
and
1 3-ounce package cream cheese.
Season to taste. Fill pepper
cases and place in refrigera-
tor, until filling is firm, 2
hours. Cut in slices with a
sharp knife and arrange on
crisp lettuce. Serve with
mayonaisse dressing. Seven
servings.

FESTIVAL SALAD

Dissolve
2 packages lime gelatin in
4 cups boiling water.
When cold and somewhat
thickened, add
1 cup shredded cucumber and
one-half of
1 cups shredded carrots.
Pour into a ring mould and
chill. Unmould in the centre
of a chop plate, and cover the
mould with the remaining
shredded carrots. Garnish the
plate with alternate pineapple
slices and cucumber slices.
Fill the centre with watercress
and serve with salad dressing.

"HEIL HITLER," 8 O'CLOCK

An Englishman who has just re-
turned from the Rhineland tells
me that he found the frequency
with which the words "Heil Hitler"
were to be heard a useful ther-
mometer for measuring the heat
of Nazi enthusiasm writes a corre-
spondent.

In Bonn and Cologne a distinct-
ly cool temperature was registered.
In Bad Godesberg, however, five
miles south of Bonn, it was high
summer.

This is to be explained by the
fact that whenever Herr Hitler
visits the Rhineland he stays at a
well-known hotel in Bad Godes-
berg, kept by an old war comrade.

All the employees in the hotel—
both male and female—appeared
on the badges they wore to be
party members, and sprang smart-
ly to attention to give the Nazi
salute at the slightest provocation.
The climax was reached when
my friend was awakened in the
morning with the words "Heil
Hitler, 8 o'clock," uttered in a
smart military tone.

"By the way do you do your own
stretchin' here, ma'am?"
"I don't understand," said the
other.

"Well," explained the girl, "so
you put all the food on the table
at dinner, and stretch for it, or do
I have to shuffle it round?"

SUMMER SALADS THAT CHEER TABLE AND TASTER

BANANA SALAD BOWL

Wash and dry carefully one or
more varieties of fresh, crisp
greens such as lettuce, watercress,
endive, or beet tops. Chop them
if you like. Rub a salad
bowl on the inside with
onion or cut clove or garlic
as desired, and arrange greens at-
tractively in it. Garnish the greens
with celery curls, radish roses or
long thin strips of carrot to add
colour. Slices or long strips of
ripe banana will blend with any
of the ingredients and give a deli-
cious flavour. Just before serving
add a tart French dressing and
toss the contents of the bowl gen-
tly, until every piece is glistening
with dressing.

FRENCH DRESSING

Mix
1 teaspoon salt
1/2 teaspoon pepper and
Dash of cayenne pepper. Add to
2 tablespoons vinegar and
8 tablespoons salad oil—put in
a bottle and shake vigorously
for 1 minute. Serve immedi-
ately.

FRUIT SALAD RING

Combine
2 tablespoons plain gelatin and
1 cup cold water.
Dissolve it over boiling water.
Cool. Add mixture to
2 pounds cottage cheese that has
been forced through a potato
sieve or sieve. Pack into greased
ring mould and chill until firm.
Unmould and serve with fa-
vourite fruit salad in centre.

ASPARAGUS-CHEESE SALAD

Soak
2 teaspoons gelatin in
1 cup cold water five minutes.
Add
1 cup boiling water, stirring
until dissolved.
Season with
1/2 teaspoon salt and
1/2 teaspoon vinegar. Allow to
cool until a thick strupy con-
sistency. Beat until it is white
in colour and will hold its
shape. Fold in
1 cup grated cheese,
1 tablespoon pimento strips
(very thin strips) and
1 tablespoon finely chopped pic-
kles. Arrange
12 cooked asparagus tips verti-
cally in a 8 1/2-inch ring mould
and add the gelatin mixture.
Place in refrigerator to chill

THE KING AND TOC H "GREAT MOVEMENT FOR GOOD"

Fellowship And Service

(Special Air Mail Service)

London, July 29.
The Duke of Kent, speaking at
a Toc H festival of the Lighting
of the Lamps at the Crystal
Palace last night, read the follow-
ing message from the King—

"Hitherto, from the very earliest
days, I have presided almost an-
nually at the Lighting of the
Lamps of Maintenance. This year
my brother, the Duke of Kent,
brings to you all in my name my
sincere greetings and congratula-
tions."

"Toc H is now a movement
which has proved itself capable
of good throughout the Empire.
"Its origin and its inheritance
render its coming-of-age an oc-
casion when members may look
back with thankfulness, and look
forward with firm hope and belief
that what they build will help
the lives of others."

"The lamps which my brother
will light to-night should remind
you of the nature of your heritage.
The example of the Elder
Brethren is now for you to
make your own."

PATHS OF THE FUTURE

"As Toc H stands to-night full
grown, it must be ready to lift
those lamps high to shed their
light on the paths of the future.
As your Patron, I look confidently

MILKY WAYS TO NOURISH AND TEMPT

Milk puddings? Yes, certainly;
but not always the same way,
please! Vary the menu with these
tempting sweets and the children
will ask for more.

First try barley kernel pudding.
This has a delicious nutty flavour.

Mix two heaped tablespoonfuls
of barley kernels with a little cold
milk. Put them into a greased
pie-dish, add two tablespoonfuls of
sugar and a pint of milk. Stir well
together, grate a little nutmeg on
the top, and bake for half an hour
in a moderate oven.

CHOCOLATE CUSTARD

A little chocolate makes a treat
of custard. Make a pint of custard
and add a tablespoonful of cho-
colate powder, or a two-penny bar
of chocolate grated finely.

Stir the chocolate into the
custard whilst hot; serve hot or
cold.

SEMOLINA SOUFFLE

The grown-ups will be sure to
like this semolina souffle. Grease
a souffle case, then boil a pint of
milk with a nut of butter and the
rind of a lemon or a bay leaf, add
a pinch of salt and two tablespo-
onfuls of sugar, sprinkle in 3 oz.
semolina whilst stirring all the
time. Cook and stir for five
minutes.

Remove the lemon rind or bay
leaf, stir in the yolks of two eggs,
then pour into the souffle case.
Stir the mixture, then gently fold
in the stiffly whisked whites of two
eggs. Cook with the Regulo mark
1 till meringue is set.

Spiced Junket

Light, nourishing, quickly pre-
pared and delicious eaten with ste-
wed prunes or figs.

Warm a pint of milk with a
pinch of cinnamon or a bay leaf,
pour it into a bowl with two tea-
spoonfuls of sugar and the same
amount of rennet or two junket
tablets. Stir, and leave to set.

CHOCOLATE BLANC MANGE

2 squares unsweetened chocolate.
2 cups evaporated milk diluted
with 1 cup water.

1 tsp. vanilla.
2 tsp. cornstarch.
1 cup sugar.
1/2 tsp. salt.
1 cup cold water.
2 eggs.

Melt chocolate over hot water.
Add diluted evaporated milk and
heat. Mix cornstarch, sugar and
salt with the cold water. Add to
the hot mixture. Cook over hot
water until thick, stirring con-
stantly. Cover and cook about 20
minutes. Pour over the beaten
eggs. Return to double boiler and
heat 2 minutes. Add vanilla and
pour into molds. Chill.

HEAT HUMIDITY AND HEADACHES

DON'T let Headaches lower your powers of resistance. Two or three 'ASPRO' Tablets, taken with a drink of water, will banish most Headaches in a few minutes. It's a mistake to think that because it's hot and humid you must endure a Headache. Even the most healthy suffer at times; heat, sun-glare, humidity and sleeplessness all help to reduce physical resistance, with the result that a Headache attacks you. 'ASPRO' will quickly clean it up before it has time to sap your vitality, make you listless, irritable, nervy and out of sorts. 'ASPRO' relieves in a perfectly soothing way, and is not harmful, because it is a pure medicine, containing no questionable or dangerous antidotes. Keep 'ASPRO' in the house to check Colds, Influenza, Rheumatism, Dengue, Neuritis, etc. It is safe insurance against everyday summer ills; it gives quick, certain relief and does not harm the heart.

OVALTINE
COLD

The delightful Summer Drink

The ideal hot weather beverage is 'Ovaltine' Cold. It is wonderfully refreshing and so delicious in taste. In addition it is brimful of the nourishment so necessary to make good the lack of nutriment in the ordinary light summer meals—it is easily digested and helps the digestion of all other foods eaten.

And after shopping, be sure to ask for a glass of 'Ovaltine' Cold. It is now served in all hotels and cafes, and is unequalled for restoring flagging energy.

But be sure you get 'Ovaltine', don't be put off with a substitute. For quality and health-giving value 'Ovaltine' stands in a class by itself. Reject substitutes.

Going bathing to-day? Don't forget to fill your thermos flask with 'Ovaltine' Cold, everyone will ask for more.

anonymous donor. We hope that both will not only build a true Toc H team within the house, but become rallying points for Toc H in the surrounding districts.

"To-night, as I light these new lamps, we are thinking of the branches which they represent, and of regions as distant and as various as Africa, Australia, Canada, New Zealand, China, India, and Palestine."

"That means hard thinking, and I am glad to know that the King's challenge to Toc H at Leicester not to rest content with the actual achievement, while though it is of service and fel-
lowship, but to think out its con-
tribution to the tasks of the
future, has met with such a ready
response."

The Duke spoke of the develop-
ment of Toc H, and said that
to-day Canada has thirty-eight
units and two houses, South
Africa eighty-seven and a house,
Australia a house and 140 units.
"Tubby" (he was referring to
the Rev. Tubby Clayton, the
founder) recent visit to the
Eastern Mediterranean, has stimu-
lated Toc H in a part of the
world where many of its members
came from the Navy, Army, and
Air Force.

THE KING'S FLYING TOUR

The King will make a flying tour of a number of R.A.F. aerodromes on July 8.

It will be his first visit to the Royal Air Force since his accession. The King holds the rank of Marshal of the R.A.F.

Since his accession the King has visited many of the Guards' regiments, and next week he will go to Portsmouth to inspect various ships of the Navy. Thus he will in turn visit all the fighting services.

Since he came to the throne the King has made only three flights—one from Sandringham to London to attend the Accession Trivy Council, once to Southampton to inspect the Queen Mary, and from Cornwall after inspecting his Duchy estates.

PALACE OF VERSAILLES TO BE SAVED

FRANCE'S THANKS TO MR. ROCKEFELLER, JR.

Ancient Beauties Restored

(Special Air Mail Service)

Paris, June 30.

Mr. John D. Rockefeller, Jr., and his wife, as guests of the French Government, to-day inspected the newly restored Palace of Versailles. The restoration has been made possible only by Mr. Rockefeller's gift of \$468,000.

France already owed gratitude to Mr. and Mrs. Rockefeller for restoring Rheims Cathedral and the Palace of Fontainebleau.

Several years have been spent on patient work in making Versailles what it was in the days of Louis XIV. To-day the restoration is completed and Versailles is saved from becoming a ruin.

Mr. and Mrs. Rockefeller, who had come specially from the United States to visit the Palace, were received there this morning by M. Zay, Minister of National Education, representing the Premier, M. Blum, who is at Geneva.

FOUNTAINS PLAYING

The great fountains were playing when the benefactor of Versailles drove with M. Zay to visit the Pavillon de Rocaille, an enchanting lay-out of rockeries and fountains. Until recently they were in such a state of ruin that the cascades were hidden from view. To-day the rockeries have recovered their former glory.

Thanks also to Mr. Rockefeller, the Bassin de Neptune, famous for its fine sculptures and gushing waters, has been restored from a state of almost complete neglect.

Mr. Rockefeller had particularly impressed upon the restoration committee the importance of restoring the garden features of the chateau of Versailles. One of these, the circular colonnade, was so covered with moss that Man-

Emotional Drama At The King's

The picture now showing at the King's Theatre is a stirring drama of the affairs of an old and impoverished family, the Lorraines. Joel McCrea plays the part of Brighton Lorraine, elder son, upon whose shoulders rests the fortune of the family if he would marry Edith Gilbert (Ruth Weston), a rich heiress. Mrs. Lorraine (Helen Westly) is an imperious and embittered parent of this proud house. She schemes to bring Brighton and Edith into matrimony and so save the family fortune.

Brighton is away on a trip to the south in an endeavour to sell some property there. While there he marries Phyllis (Miriam Hopkins), penniless but lovely. It is a sad blow to Mrs. Lorraine's plans. She schemes to get what she wants—money. Martin Deering (Paul Cavanagh), a cousin of Brighton's is wealthy, and is attracted to Phyllis.

Deering arranges for an opening for Brighton not because of Brighton's own ability but because of Phyllis. This first success and taste of money goes to Brighton's head and as a result of a quarrel with Phyllis, Brighton is offered a trip to Mexico, on a proposition, which if it is put across establishes the Lorraine fortune. The price is Phyllis, and Deering is paid.

Brighton returns glowing with success and Phyllis breaks the real secret of his success to him. He is humbled and revolted. Phyllis leaves him.

Phyllis is a salesgirl. Brighton breaks with Deering and becomes a newspaper man. Edith brings them together and they become united once more, this time without the harping influence of the scheming mother.

The picture is more appealing for its undercurrent of strong character which the players depict. Feelings which come into contact, strong emotional contact, without ostentatious show.

sard's magnificent has reliefs could hardly be recognised.

The West end of the Grand Canal, a most delightful landscape, has also been completely restored. The canal staircases now appear as they did in the early 18th century.

RENDERING "USEFUL SERVICE"

A marble plaque conveying in gold letters the French nation's thanks to Mr. Rockefeller was inaugurated at noon in the Vestibule Gabriel of the Chateau.

Speaking at a luncheon afterwards, Mr. Rockefeller said: "In my early youth I learned from my father, who is now about to celebrate, in the best of good health, his 77th birthday, that the greatest satisfaction which one can find in life is to render useful service."

"I already have had this satisfaction and reward in the largest measure, thanks to the accomplishment of this work."

This afternoon the restored Theatre de la Reine at the Trianon was reopened for the first time since the French revolution. One of the plays in which Marie Antoinette used to act, "Le Devin du Village" (The Village Soothsayer), was given.

The theatre has been restored to its former beauty and in the minutest detail, thanks to a fragmentary document found by the Conservatoire of Versailles.

GAY COMEDY AT ALHAMBRA

"And So They Were Married"

Gay sophistication and uproarious romance are featured in the latest Columbia vehicle, "And So They Were Married," now showing at the Alhambra Theatre, featuring Mary Astor and Melvyn Douglas. Mary Astor portrays the role of a divorcee while Douglas is shown as an ex-husband, both of whom have a child, a girl and boy respectively.

Edith Fellows is brilliant as the girl and her antics in collaboration with Jackie Moran, the boy, are amusing. They agree with childish sincerity to do their utmost to keep their respective parents from marrying each other, and the fun and complications that arise—sometimes even embarrassing, keep the audience interested throughout.

Some of the outdoor scenes amid the snow are really splendid, while the acting of Mary Astor and Melvyn Douglas leaves little to be desired. For those who appreciate comedy-romance, the picture can safely be recommended.

After a series of hilarious situations, the climax is reached in a laugh-filled sequence. Elliott Nugent directed from the screen story by A. Laurie Brazee, Doris Anderson and Joseph Anthony. Nugent, who has many credits to his long list of directorial successes, adds one more with his effort in this picture—"Redin-carn."

Hollywood is peopled by the most unusual mélange of types gathered together within any one area on the face of the earth. Drawn by moviedom's magic power, adventurers, grand dukes, gangsters, scientists, millionaires and paupers yearly migrate to the Pacific Coast in search of some nebulous fame that motion picture work seems to offer.

On the Columbia sound stage where scenes for the new comedy romance, "And So They Were Married," now at the Alhambra Theatre, were being filmed, a quiet-spoken, profound man about 35 sauntered about the set between duties as Melvyn Douglas' stand-in. By every stretch of the imagination the stand-in job is uninspired and inconsequential. They are the ones who take the actors' places while lights and sound equipment are being prepared for filming a scene.

This particular stand-in, however, is a distinguished scientist and explorer. He is David Monroe Harper, at present on a cruise in the South Pacific with a group of eminent scientists searching for curious sea animals said to inhabit the waters of that region. They will be gone two months in all, visiting the Galapagos and Cocos Islands procuring specimens for American museums of natural history.

In an informal conversation on the set, Douglas and his leading lady, Mary Astor, learned from Harper that he is also a former air-mail pilot. He is credited with testing the famous aircraft which Mr. and Mrs. Lindbergh flew on their perilous flight over Central and South America a few years ago.

Harper's only explanation for his unusual vocation as Douglas' stand-in is that he likes being in Hollywood. He will become a permanent member of the Columbia Studio Staff on his return from his current South Pacific expedition.

They didn't want to get married... but two mean kids made them! She's a gay divorcee—and he's an ex-husband... whose exciting troubles before wedding bells peal again will rock you with laughter. She despised all men! He hated all women! It was love at first sight with no holds barred except kissing in the clinches, and no limit on laughs except rolling in the aisles!

Where, and how does all this take place? You'll see it in Columbia's gay romantic comedy "And So They Were Married," showing now at the Alhambra Theatre! It has been called one of the most hilarious pictures of the year. Topping the cast are Melvyn Douglas, Mary Astor, and two of the funniest kids on the screen. Edith Fellows of "She Married Her Boss" fame and Jackie Moran, a newcomer.

The story goes that Stephen Blake and his son Tommy, and Edith Farnham, charming divorcee, and her daughter, Brenda, are thrown together at a winter resort, much to the distaste of all four.

What happens to the two wild kids and their parents before the end of the picture provides some choice entertainment.

REIGN OF TERROR

IN ADDIS ABABA

Tribute To British Refugee Camp

(Special Air Mail Service)

London, July 2.

Vivid accounts of the rescue and relief of British and foreign nationals during the "reign of terror" of May 2-6 at Addis Ababa, after the Emperor's departure for Djibouti, are contained in reports and correspondence on the disturbances, issued last night as a White Paper.

"The situation developed so unexpectedly as the result of the Emperor's final acts in the night of May 1-2, and police control broke down so quickly and completely into common banditry, that no 'pre-arranged withdrawal of British communities into the Legation was possible,'" says the British Consul, Mr. C. G. Hope Gill, in his report.

Mr. Hope Gill pays tribute to the devotion of Col. Robert J. Sturdy, Refugee Camp Commandant and Quartermaster, to "this exacting and voluntary task." His personal, ally, he states, overruled all difficulties.

A graphic description of the "reckless discharge of firearms" by natives who had become wildly excited by the acquisition of large quantities of ammunition pillaged from the Government arsenal is given by Col. Sturdy.

REFUGEES' GRATITUDE

Col. Sturdy, in a reference to the "excellent maintenance of order," says it was thought expedient to round up all Abyssinian men, "for there was good reason to doubt their trustworthiness." The arrival of the huge Italian army brought the "reign of terror" to a close, and with security established refugees were prompted to leave camp on the morning of May 6.

As the evacuation of the camp proceeded many refugees of all classes expressed their appreciation for the security, courtesy and hospitality vouchsafed them by the British Minister, Sir Sidney Barton, and his staff.

"Such appreciation," adds Col. Sturdy, "made one feel that our labours had not been in vain, and that the task accomplished under extremely difficult conditions had once again maintained the high prestige of our race."

There appears to have been no direct animosity against the foreign community, according to Capt. R. H. R. Taylor, Assistant Military Attaché. The only foreigners killed or wounded, other than by stray bullets or by drunken men, he states, were those who were defending their property.

"How people escaped as they did from the indiscriminate shooting is beyond belief," he adds. "During the first two days men pressing the triggers of the rifles irrespective of where the latter were pointing, whenever a vehicle passed them."

Also contained in the White Paper are letters of appreciation from the American, Belgian and Turkish Ambassadors in London to Mr. Eden for the prompt and efficient assistance of Sir Sidney Barton and his staff in the evacuation of their nationals.

SHIPPING TO BE PROTECTED

NEW PLAN ENVISAGED

To Combat Foreign Subsidies

(Special Air Mail Service)

London, June 28.

An Empire-wide system of protection for shipping, applied in every port of the British Commonwealth and covering goods as well as the ships which carry them... This is the only "argument" which Sir Charles Hilwood, director of the National Union of Manufacturers and late of the Board of Trade, thinks is likely to overcome foreign shipping subsidies.

He told the Seafarers' Education Service Conference at Cambridge yesterday that if his guess were correct it followed that nationalism and protectionism had come to stay, at any rate for a considerable time, and we need not expect to see any return of the days when Britain owned half the tonnage of the world.

Too many nations were now

for perfectly natural and legitimate reasons, determined to have an adequate mercantile marine of their own, and where considerations of national defence and 'amour propre' were involved, it was not likely that expense would be spared.

It did not look as if a mere war of subsidies would lead to a conclusive or satisfactory result. At the same time the subsidy system had some inherent weaknesses of its own. It was invidious, inasmuch as it benefited one class at the expense of others, and it was very expensive, while it did not necessarily make sea transport either cheap or efficient.

NEW TECHNIQUE

The plan he suggested would mean a totally new kind of protection, with a new technique of its own, and it would not be easy to construct or work. The willing consent of the Dominions and India would have to be obtained, and all kinds of difficulties and dangers from retaliation downwards would have to be dealt with.

But in essence the plan would be simple—firstly that, subject to agreed qualifications and exceptions, the selection of sea transport was to be left to be determined by considerations of price and efficiency alone; and secondly, that all the resources of the Commonwealth were to be used to support this principle.

The principle was one which might well commend itself to the Dominions and India, and it need not shock or surprise the United States or Japan. These countries were quite naturally going to take as much of our trade as they very well could, whatever we did or refrained from doing, and if they were to see that the British Commonwealth was really united and meant business they would be prepared to talk business.

That talk would naturally turn on the qualifications and exceptions to be allowed, and if the parties knew their own minds there was no reason why it should not result in agreement which could be reasonably satisfactory to both sides.

An
English Doctor
writes:—

"I find that 'Bisurated' Magnesia taken after meals is the only thing that keeps me free from pain and discomfort, and I take it regularly. I often prescribe it for my patients, and have had very good results."
(Signed) Dr. H. G. M.A., M.R.C.S., L.R.C.P.

THE English doctor is the most conservative medical man in the world, and when he not only recommends but personally uses a remedy there can be no more convincing proof of its efficacy. This doctor is but one of many who constantly advise the use of 'Bisurated' Magnesia in all cases of indigestion. Most stomach trouble is caused by acidity, and the reason why 'Bisurated' Magnesia gives quick relief is that it instantly neutralises excess acid and soothes, heals and strengthens the inflamed stomach lining. Nothing could be simpler, safer or surer. If you suffer with indigestion or stomach disorder of any kind put your faith in European science and make an end of your troubles by taking 'Bisurated' Magnesia after eating or whenever pain is felt.

Money Lost

Theft of a wristlet watch and \$31 in money from Private Jones R.A. Dental Corps, Shamshuipo Barracks, was mentioned before Mr. Q. A. A. Macfadyen at the Kowloon Magistrate's Court yesterday when Wong Yuk, 23 years, unemployed, appeared in answer to a charge of larceny. The theft was alleged to have taken place on July 4. Sentence of one month's imprisonment was imposed.

Det.-Sergt. J. M. Forrest stated that Wong was employed by complainant at the Camp until July 4 at \$3 per week. At 4.30 on that day complainant returned to his quarters and went to get his watch from a drawer only to find it missing. He then looked for his wallet and found it in the same drawer under some books but \$31 was missing. He looked for defendant but could not locate him. A report was made to the authorities.

Enquiries were made at defendant's house where it was ascertained that he had not returned. At 1.30 p.m. on Monday, a Chinese detective saw defendant in Yee Yuk Street. He was questioned and admitted the theft. Defendant said all the money had been spent at Shum Chun in gambling and had also pawned the watch there and had given the pawn ticket to the master of the Tai Tung Boarding House as payment for his lodging. A detective was sent to Shum Chun and both the pawn ticket and watch which had been pawned in Chinese currency were recovered for \$2.40 Hong Kong money at complainant's expense. When arrested defendant had \$1.30 in his possession.

In addition to the above sentence, defendant was ordered to pay \$30 amends or serve three weeks' prison in default. The money found on defendant was handed over to Pte. Jones.

GUARD'S LOSSES TRACED

PROPERTY STOLEN BY EMPLOYEE

Sung Hon Ping, a servant of Mohinder Singh, a Police guard, appeared before Mr. W. Schofield at the Central Court yesterday charged with the larceny of a wrist watch, an alarm clock, a blanket, a bedsheet and a rattan basket, the property of the guard.

Det.-Sergt. Downman stated that the defendant was employed by the complainant for three days and had then absconded on the 9th. The theft was discovered and the guard told his Police friends about the matter.

On July 13 the defendant went to the Indian Police headquarters looking for employment. He was identified and taken to the station. A pawn ticket relating to the wrist watch was found, and he then took the Police to a house where the rest of the articles were located.

Defendant was remanded until Saturday.

COCAINE ON PREMISES

FACTORY IN THE COURSE OF ERECTION

Kwan Ying and seven other defendants appeared before Mr. Burgess at the Central Court yesterday charged with the possession of 24 ounces of pure cocaine.

Mr. D. McCallum appeared for all defendants and pleaded guilty on behalf of the first and not guilty for the others.

R. O. Grimmer stated that there had been a raid on Nos. 427 and 429 Queen's Road West on the night of July 13. A heroin factory was found to be in the process of erection. The only drugs found were the 24 ounces of cocaine.

R. O. Grimmer asked for the confiscation of all the paraphernalia and asked that a serious view be taken of the case as cocaine was a very dangerous drug.

The seven defendants were discharged and the sentence on the first was deferred until to-day.

MUI TSAI MARRIED

BUT AUTHORITIES WERE NOT NOTIFIED

Mak Chu, a married woman living at No. 17, Second Street was summoned before Mr. W. Schofield at the Central Court yesterday charged with failing to report the intended marriage of a registered mul tsai named Chan Fook, aged 17.

Defendant pleaded that she was ill at the time.

Inspector H. W. Fraser stated that on June 13 the defendant made a report to the S.C.A. that on June 9 the mul tsai had become the kit-fat wife of one Chu Cho, aged 25, an unemployed truck driver. A dowry of \$90 was arranged of which only \$30 was expended on the girl, which seemed to indicate that the girl had been married off because the defendant was short of money. Defendant had since promised to return the money at a later date.

Defendant was fined \$5.

CHANGE OF ADDRESS

Cheung Yan Suet, a married woman, living at No. 6, Moss Street, was also summoned before Mr. W. Schofield for failing to report the change of address of a registered mul tsai named Au Sui Ching, aged 20.

Defendant admitted the charge. Inspector Fraser stated that it was through a visit of one of the lady inspectors to the old address that the girl was found to have been removed.

Defendant was fined \$20.

HEROIN POSSESSION CHARGE

HEAVY FINES INFLECTED

Three people, Cheung Kam Ming, 38, unemployed, Lau Hung, 38, unemployed and Lo Shing, 53, unemployed, appeared before Mr. W. Schofield at the Central Court yesterday on remand charged with the possession of 603 ounces of heroin at No. 470, Lockhart Road on June 8.

Inspector A. E. Carey was for the prosecution. Mr. S. Ng Quinn was for the defence.

At yesterday's hearing Inspector Carey re-entered the box and stated that the keys found on the first defendant only opened a back suitcase, in which found 11 packets of the powder.

Lo Shing stated that he was an innocent man having come to Hong Kong to look for work as a cook.

Cheung Kam Ming said that he came possessed of the keys through Lau Hung leaving them on a seat at a tea shop where they had tea with a mutual friend. Varying circumstances prevented him from returning the keys that day and when he returned in the early morning he was searched and they were found in his possession. Even then Lau Hung said that the keys were his.

The third defendant was discharged.

Inspector Carey said that this was the greatest quantity of morphia ever seized.

First defendant was fined \$2,500 or 6 months. Second defendant had a similar sentence with one year in addition.

OBTAINING FOOD UNDER FALSE PRETENCES

FITTER CHARGED

Tung Tung, 32, a fitter, living at Ping On Lane, was charged before Mr. W. Schofield at the Central Court yesterday on three counts, of (1) larceny on July 2 from Wong Tak, 153, Hennessy Road, of a mah jong set and a table, (2) obtaining credit for \$1.15 from Lo Lung on July 3, under false pretences, and (3) the theft of five knives, one fork and a spoon, the property of Lo Lung.

Det.-Sergt. Downman said that at 9.30 p.m. on July 3, the defendant ordered a meal costing \$3.15 which was delivered and the next day when the man came for collection the premises had been vacated. The dishes were left behind but the utensils had been taken. The mah jong set which

A BREACH OF THE WIRELESS REGULATIONS

NOMINAL FINE IMPOSED

Missing Link

Remarking that certain paraphernalia found in No. 8 Kent Road, Kowloon Tong, had not been proved by the prosecution to belong to a wireless set for which no licence had been taken out, Mr. E. Himsforth, at the Kowloon Magistrate's Court yesterday, imposed a nominal fine of \$5 on George C. Lau for a breach of the Wireless Regulations.

Det.-Sergt. G. Carruthers prosecuted while Mr. Peter H. Sin was for the defence.

Mr. Sin said that he was instructed to plead guilty to a technical offence. So far as he was aware his client did not possess a set at all. However, his client's brother, Lau Chu-kay, of No. 121 Caine Road, possessed a set which was licensed. His client had the set repaired at Sincere's in his own name following which it was installed in Kent Road for testing purposes for a few days. Under these circumstances he submitted that a caution or a small fine would meet the case.

A DIFFERENT VERSION

Sergt. Carruthers:—I am afraid that the prosecution's version of the case is slightly different.

Sergt. Carruthers added that the General Post Office had been notified by a dealer on April 1 regarding repairs to a set in defendant's name and address. As no registration could be traced, Mr. A. E. E. Jeffries, Wireless Technician, visited Kowloon Tong on June 11 at 4 p.m. and was shown over No. 8 Kent Road by an amah. He found a table model installed in the top front room. As Mr. Jeffries did not understand Chinese and the amah could speak only a little English it was arranged that a Chinese detective visit the premises the next day. On the morning of June 16 defendant went to the G.P.O. himself to see about the detective's visit and stated that there definitely was no set in the house. Defendant apparently was unaware of Mr. Jeffries' previous visit for defendant stated that last year his brother went to England with a set and there had not been one installed since then. When Mr. Jeffries told him that he had visited the house and seen the set himself defendant evinced great surprise.

Mr. Sin:—Your Worship appreciates that I am not contesting the case of the prosecution as I have pleaded guilty.

Continuing, Sergt. Carruthers said that in spite of the statement by Mr. Jeffries defendant kept to his story and even suggested that the Wireless Technician had mistaken the gramophone for the wireless set.

CONFISCATION ASKED FOR

It was then agreed that a search warrant be taken out. A visit to the house disclosed an aerial, ground wire and other paraphernalia in the garage.

Mr. Jeffries stated that on his first visit he saw the wire come in from the window connected to the set. He did not notice any aerial.

Sergt. Carruthers submitted that two offences had been committed, namely, that defendant had no licence and that the set had been installed.

His Worship enquired whether if he had a wireless set in his motor car and it was borrowed by his friend, whether the latter would have committed an offence.

Sergt. Carruthers replied it was a matter for the traffic regulations. The prosecuting officer added that the authorities were pressing for a heavy penalty.

His Worship, while admitting that there had been a breach committed of the regulations, ruled that there was no definite evidence to prove that the aerial and wires found in the garage belonged to the set. He was therefore prepared to accept the defence's story and under the circumstances would impose only a nominal fine of \$5.

The prosecution applied for the confiscation of the paraphernalia but the Magistrate ruled that under the circumstances he could not make such an order.

had been ordered in the usual custom was also gone. The things were subsequently recovered in a pawnshop.

The case was remanded for 48 hours.

Around the Courts

DECREE NISI MADE ABSOLUTE

The decree nisi granted to Mr. Lee Shua-lan in her petition for divorce against her husband, Mr. Lee Sha-fook, on March 9 last was made absolute by the Chief Justice, Sir Atholl MacGregor, in the Divorce Division of the Supreme Court yesterday.

FALSE COLOURS

Che Shu-pak, alias P. C. Chak, of No. 797 Nathan Road, ground floor, was summoned before Mr. E. Himsforth at the Kowloon Magistrate's Court yesterday for wilfully and falsely taking or using a name or title implying qualification to practice medicine on June 21. Det.-Insp. A. H. Elston appeared for the prosecution and intimated that defendant was not present in Court.

A remand till Friday at 11 a.m. was granted.

TRESPASSING

Pleading that he did not know that a permit was necessary and that he had visited the Barracks for food, Chan Ying, 28, unemployed was fined one dollar or seven days' imprisonment by Mr. E. Himsforth at the Kowloon Magistrate's Court yesterday for trespassing at Whitfield Barracks. Sergeant A. F. Cochrane said that he was arrested by a soldier and handed over to the police. Jemadar K. Dad appeared as the complainant.

BANISHMENT

Sin Chun, 38, banished on February 15 last year for ten years appeared before Mr. Himsforth at the Kowloon Magistrate's Court yesterday charged with returning to the Colony before the expiration of his banishment order. Sin pleaded he could not find employment in Canton and had returned to Hong Kong to be a story teller. Three months' hard labour was imposed. Sub-Insp. H. E. Rogers prosecuted.

TREES DAMAGED

Cheung Tsai, unemployed, was fined \$20 or, in default, six weeks' imprisonment by Mr. Macfadyen at the Kowloon Police Court yesterday for cutting down a tree, eight inches in diameter, at Kowloon City. Mr. G. B. Twemlow, of the Botanical and Forestry Department, said that there were over 23 trees cut down in the area where the defendant was caught. There was no evidence to show that defendant was responsible for this but whoever had done so apparently went in for it wholesale.

UNDER-STAMPED RECEIPTS

Two summonses for under-stamped receipts were heard by Mr. E. Himsforth at the Kowloon Magistrate's Court yesterday. So Ho, of the Tin Hin Company, No. 115 Wing Lok Street, East, ground floor, was summoned for issuing a five cent receipt stamp on March 20 to Man Hing Loong, No. 75 Shanghai Street, for a receipt of \$24.53. A fine of \$10 was imposed. Chan Yau, of the Fat Loong Company, No. 74 Eastern Street was similarly fined for placing a one-cent stamp on a receipt for \$50 issued to Man Hing Loong at Shanghai Street. Sergt. J. G. Whitford, of the Treasury, prosecuted in both cases.

THEFT FROM BOARDING HOUSE
Chan Chung, 33, charged before Mr. Burgess with the larceny of clothing and jewellery to the value of \$70, was remanded for 48 hours, at the Central Court yesterday. The articles were the property of Chan Man Kwan, a traveller of the Sing Toi San Boarding House.

Mr. W. M. Brown appeared for the defendant. Bail was allowed in \$250.

ANOTHER CASE

Mrs. R. A. Rodger, of 531 the Peak was also summoned for allowing her two dogs abroad without muzzles. She was fined \$4 by Mr. Burgess at the Central Court yesterday.

OBSTRUCTING THE POLICE

The increasing attitude of female hawkers of lying on the ground when arrested and thus obstructing the officer in his duty was stressed in the Central Court yesterday when Cheung Kam, 24, was charged with (a) obstructing with her licence stall, and (b) obstructing P.C.B. 375 by lying on the ground and refusing to go to the station when arrested.

Sub-Inspector Baber stated that this refusal on the part of the women to go to the station necessitated the sending of another constable to the scene.

Defendant was fined \$1 or one week on the first charge, and \$15 or three weeks on the second.

DOG UNMUZZLED

Mrs. Wall, living at "Alberose," 215, Pokfulam Road, was fined \$3 when she appeared at the Central Court yesterday summoned for allowing her dog to be abroad on the Pokfulam Road at 5.50 p.m. on June 30 without a muzzle.

CAUGHT IN THE ACT

A fine of \$50 or six weeks was imposed by Mr. Burgess at the Central Court yesterday when Yau Wong was convicted of the larceny of three pieces of telephone wire, the property of the Telephone Company.

Det.-Sergt. Mann said that there had been a lot of complaints and a watch was set as a result of which the defendant was seen cutting the wire.

DEATH OF LADY DAVIDSON

WIDOW OF ARCHBISHOP

London, June 26.

Lady Davidson, widow of the late Archbishop of Canterbury, died at her Canterbury home early to-day.

Lady Davidson was 77. She was taken suddenly ill on Monday, and her condition later gave cause for grave anxiety.

Her husband was the first Primate of All-England to retire from his high office.

It was in November, 1878 in Lambeth Palace Chapel that Edith, daughter of Dr. Tait, Archbishop of Canterbury, married Lord Davidson. She was at the time less than 20 years of age.

Just before she was born five of Dr. Tait's daughters had died within a few weeks of one another from scarlet fever.

Six months before her marriage, Edith Tait's only brother, Crauford, died in his young manhood, and she was summoned back from her honeymoon in France by the death of her mother.

"IDEAL PARTNER"

When her husband died in May 1930 Lady Davidson kept ceaseless vigil for more than 30 hours at his bedside, remaining with him to the end.

She had been described as his "ideal partner and helpmate," taking active part in diocesan work and showing special interest in the welfare of women and girls.

Lord Davidson was Archbishop of Canterbury for a longer period than any previous holder of the office since the Reformation—for 23 years and nine months. The day of his retirement—November 12, 1928—was also his golden wedding day.

HUSBAND'S DEATH

He was 82 when he died, and shortly before he became unconscious he paid a touching farewell to his wife. "With a smile of recognition he clasped the hands of his devoted companion, and then slowly raised his right hand, and gave her his blessing."

It was Lady Davidson herself who first announced his death in the following message which she wrote and which was later pinned by her to the door of the house in Cheyne-walk, Chelsea, where she and her husband went to live after his retirement:

"Archbishop Davidson entered into the larger life this morning. Rogation Sunday, at 1.15 a.m. 'Thanks be to God for his life here, and there.'"

CATHEDRAL BURIAL

A month after Lord Davidson's death, it was announced in the "London Gazette" that the King had granted "permission" for Lady Davidson, on her death, to be buried beside her husband in Canterbury Cathedral.

MARSMAN MINE'S VAST OUTPUT

Producing Plants Under Experienced Engineers

OVER P600,000 IN GOLD SHIPPED MONTHLY

The activities of Marsman and Company have expanded considerably during the past six months; several new management and operating contracts have been signed and projects already in operation have been enlarged considerably. The company now has management agreements with five producing properties: Itogon and Suyoc Consolidated in the Baguio district; United Paracale, San Mauricio, and Coco Grove in the Paracale-Mambulao district. Besides these, which produce more than P600,000 a month in gold, the Marsman interests are developing a chromeite property for the Acoje Mining Company in Zamboanga; a gold placer property for Gold Pocket Mines, Inc., in Nueva Ecija; gold properties at the North Mindanao Venture, the Mindanao Mining Company; Bued River Syndicate and the Tinga Gold Mining Company.

For the first time in Philippine history, a local mining concern undertook the development of a property abroad, when Marsman and Company signed contracts in May with the Colonial government of Hong Kong for the prospecting, development, and operation of tungsten ore deposits near Kowloon.

OPERATING COMPANY

Marsman and Company is the operating company of Marsman Investments, Ltd., which was organized in London for the purpose of consolidating and financing the Marsman interests.

Marsman Investments, Ltd., is headed by J. H. Marsman, chairman of the board of directors, and Major A. Beckerleg, B. S. Ohnlick, G. W. Kerr and H. P. L. Jolly, directors. The London committee is composed of L. E. B. Eoman, Dr. A. Wijnberg, Mrs. M. A. Marsman and E. W. B. Leake. At the time the company was formed in London, shares to the value of P4,250,000 were allotted and the sum of P1,415,000 was subscribed.

The balance sheet of the company as of April 30, 1936, shows an increase in market valuation of P2,188,239. The policy of general expansion which has been carried on by Marsman and Company during the past six months has called for the provision of further funds, and an additional P750,000 was subscribed in London, bringing the total amount of subscribed capital made available in London to P2,185,000.

NET WORTH P1,686,349

Marsman and Company, itself has a net worth of P1,686,349, according to its balance sheet as of April 30, consisting of 158,060 shares of non-par value issued.

The board of directors of this company is interlocking to a certain extent with that of Marsman Investments, Ltd., and has the following members: J. H. Marsman, chairman; A. Welhaven, B. S. Ohnlick, E. Madsen, J. O. Enberg, W. H. Brown, A. Beckerleg, T. J. Wolf, and A. F. Kelly.

Marsman and Company was the first to organize a board of consulting engineers, and a geological field engineering section in the Philippines. In addition to these two groups, each of the companies under Marsman management has its own technical staff.

CONSULTING ENGINEERS

The board of consulting engineers is composed of J. O. Enberg, A. Welhaven, M. A. Beckerleg, A. Welhaven, J. O. Greenan, J. B. Stappier, G. W. Kerr, J. B. Findley, and C. A. Weekley. The engineers in the geological and field engineering section are E. W. Bedford, L. W. Buchanan, D. W. Blythe, J. E. Kyte, G. H. Newman, C. G. Scott and S. D. Rohrer.

In addition to these engineering groups the company has a machinery and supply department, headed by C. H. Hirst, manager, with G. H. Evans purchasing agent; H. A. Ottiger, manager, Baguio branch, and H. J. H. Maclean, Paracale branch manager. It has an insurance department with F. J. Courtney as manager, and an accounting department in which J. Hunter is assistant to the treasurer, R. O. Allen is chief accountant, and C. E. Strait is chief commercial accountant.

ITOGON

The Itogon Mining Company is the oldest producing property of the Marsman interests. Production was first started in 1926 and since that time the plant has produced nearly P11,000,000 (through June 30). During the first six months of 1936, the company shipped over P1,275,000.

Itogon has been enlarged to a capacity of 15,000 tons a month, and by the end of 1936 this figure will be raised to 30,000 tons. Itogon has an authorized capital of 20,000,000 shares of 10 centavos par value, P2,000,000. Capital issued is 19,811,200 shares, and the net worth is P2,360,795. Ore reserves as of January 1, 1936 were 440,460 tons valued at P9,851,425 (average value P22.33 per ton).

R. R. Allison, general superintendent of Itogon, left Manila early in July on a vacation trip to the United States. During his absence Warren Glikson will be acting general superintendent.

SUYOC CONSOLIDATED

Suyoc Consolidated was brought into production in August, 1934; its total production to date has been about P1,700,000. Since the first of this year the capacity has been brought to 5,000 tons monthly, and a further increase now being carried out will bring this figure to 8,000 tons by the end of 1936.

Suyoc has an authorized capital of 12,500,000 shares of ten centavos each, P1,250,000 of which the entire amount was issued. The ore reserves as of January 1, 1936, were 101,270 tons, valued at P2,642,346 (average value P26.11 a ton).

R. W. Crosby general superintendent of Suyoc Consolidated.

UNITED PARACALE

United Paracale was the first plant to start production in the Paracale-Mambulao district since the revival of that region was brought about through the efforts of the Marsman interests. The mill started in May, 1935, and to date has produced some P1,250,000. Since the first of 1936 the mill capacity has been increased to 10,500 tons a month, which was effective in May, 1936.

United Paracale has an authorized capital of 10,000,000 shares of ten centavos each, of which 6,000,000 shares were issued. The net worth is P766,763. Ore reserves on January were estimated at 298,854 tons, valued at P5,311,500 (average value of P17.80 a ton).

J. E. Atkinson is general superintendent of United Paracale.

SAN MAURICIO

San Mauricio is one of the most interesting properties in the Paracale area, since it has been operated at intervals by English, Spanish, and native miners since ancient times. Development work warranted the construction of a mill early in 1936, and a 150-ton plant was started on March 10. This capacity will be doubled as soon as developments permit.

San Mauricio has an authorized capital of 8,000,000 shares of par value of ten centavos. Of this, 5,600,000 shares were issued. The net worth is P639,638. Ore reserves on January 1 were 98,930 tons, valued at P3,407,550 (average value P35.00).

H. L. Barr is general superintendent of San Mauricio.

COCO GROVE

The largest gold placer operation in the Islands, and one of the largest of the world, is that of Coco Grove, Inc., which the Marsman interests operate in Paracale Bay. Three dredges are now engaged in working over the rich sands of this bay, and a monthly yardage of at least 400,000 cubic yards is expected.

The Coco Grove claims were worked over to some extent by previous dredging companies. In the period from 1900-1907, the dredges now being used have been rehandling this ground up to the present, and more than P250,000 has been produced. The cubic yardage tested was 14,328,000, and the value per yard is estimated at P7.08; thus the total gold content of the sands is P10,154,746. More yardage is said to exist in the adjacent Malagut River, and the

Orders-In-Council

The following "Government Gazette Extraordinary" was published yesterday.

It is hereby notified that, in view of the proposals adopted by the Co-ordinating Committee of the League of Nations for the Governments of Members of the League should abrogate on the 15th July the restrictive measures taken by them in connection with the dispute between Ethiopia and Italy, His Majesty has made on the 10th day of July, 1936, an Order in Council, intitled "The Treat of Peace (Covenant of the League of Nations) Order, 1936," revoking the Treaty of Peace (Covenant of the League of Nations) Order of the 25th October, 1935 (published by Notification No. 887 in the "Hong Kong Government Gazette" of the 15th November, 1935), and Orders of the 8th and 19th November, 1935 (published by Notification No. 16 in the "Gazette" of the 3rd January, 1936) as from the 15th July, 1936.

The application of the Order in Council of the 10th July, 1936, is similar to that of the Order of the 25th October, 1935, and it is provided that the revocation of the former Orders shall not affect:

- (a) their previous operation or anything duly done or suffered under any of them;
- (b) any rights, privileges, obligations or liabilities acquired, accruing or incurred under any of them;
- (c) any investigation, legal proceeding or remedy in respect of any such right, privilege, obligation, liability, penalty, forfeiture or punishment as aforesaid; and any such investigation, legal proceeding or remedy may be continued or enforced, and any such penalty, liability, forfeiture or punishment may be imposed as if the said Orders had not been revoked.

A copy of the Order in Council will be published in the "Hong Kong Government Gazette" when it is received in the Colony.

MISUNDERSTANDING CLEARED UP

Summons Dismissed

An apparent misunderstanding between the authorities and the master of the Hung Sang Company, No. 250 Queen's Road Central, was revealed before Mr. Q. A. A. Macfarlane at the Kowloon Magistracy yesterday when Chau Chik-sang was summoned for failing to comply with a Magistrate's order dated April 22, 1936, ordering him to clear and vacate an area in Austin Road. Mr. H. Peeploe, land valuer, appeared for the prosecution while Mr. E. S. C. Brooks was for the defence.

In mitigation on behalf of his client, Mr. Brooks said it appeared to be quite apparent there had been a misunderstanding between the two parties. When the order was made against the defendant, he (Mr. Brooks) applied for a permit to be renewed but it was refused the same day. Defendant was, however, given three weeks from June 24 to clear the area and understood that this permission only expired yesterday and that the area had been cleared a week ago.

Mr. Peeploe agreed that this was so and said that the P.W.D. were not pressing the case.

The summons was dismissed.

Marsman engineers estimate around 10,000,000 cubic yards with at least P35 in gold a yard.

When gold-recovery starts at full capacity at Coco Grove, the total production should be well over P1,000,000 a month—about one-third of the total amount now produced by all of the ore-treating plants now operating.

The other operations of Marsman and Company include a number of development projects on claims located from one end of the Islands to the other. The company operates its mine management department for the benefit of all claim owners and companies who wish the services of experienced and reliable mining engineers which they would otherwise be unable to obtain.

NEW SCHOOL CERTIFICATE EXAMINATION

SYSTEM TO COME IN FORCE NEXT YEAR

Recommendations Of H. M.'s Inspector

The 103rd Meeting of the Board of Education was held on Monday, July 13.

There were present: Director of Education, Mr. G. R. Sayer, B.A., Chairman. Inspector of English Schools, Mr. T. R. Rowell, B.Sc. Inspector of Vernacular Schools, Mr. Y. P. Law. Sir W. W. Hornell, Kt., C.I.E. M.A., LL.D. M. Li Ts Fong. Hon. Dr. S. W. T'ao, C.B.E., LL.D. Mr. B. Wylie. Rev. F. Short. Secretary—Mr. E. J. Edwards.

The Board considered the Director's proposals for the substitution of a Class 2 School Certificate Examination for all English Schools for the present Class I Examination.

The Board unanimously adopted the proposals, the objects and reasons of which are set forth in the appended communique, and agreed that the new Examination should be held for the first time at the end of the next Summer Term—June, July, 1937.

THE COMMUNIQUE

With a view to implementing certain recommendations made by Mr. Burney, H.M.'s Inspector, in his recent report on local education, the Director of Education is instituting a common Class 2 examination for all local English schools. Government and "Grant-in-aid."

The Examination will be controlled by a Syndicate, under the Chairmanship of an Inspector of English Schools appointed by the Director, and consisting of the heads of participating provided schools; and of such participating Grant schools as accept the Director's invitation to membership.

It will be held for the first time towards the end of the next summer term—that is to say in June or July 1937.

In order that Class 2 students of the current year may not forgo a chance of securing a School Certificate it is hoped that the Hong Kong University will continue to hold its present Class 1 examination in 1937. But thereafter it is intended that Class 1 will become a special or matriculation class, limited to holders of Class 2 certificates; and the Hong Kong University is being invited to formulate and acquaint the Director with its matriculation requirements in so far as any modification of current requirements is involved.

SHOULD BE HELD EARLIER

The view of Mr. Burney briefly is that in order that more pupils may be examined than at present survive to Class 1; in order that the examination may be an examination for boys and girls and not for young men and women; and in order that those who stay on at school with a view to being admitted to a University may have a year or two's post-certificate work, the School Certificate Examination should be held a year or two earlier, and should be controlled by those responsible for the schools.

The Director, after careful consideration of the present school course, comes to the conclusion that, although it is not possible to go further, effect can be given now to this recommendation by substituting for the certificate examination at Class 1, a certificate examination at Class 2—one year earlier. He reaches, in fact the conclusion that, with little or no modification of the current academic curriculum from Class 8 to Class 2, a course complete in itself is provided ready to hand. The substantial change is to be looked for rather in the altered curriculum of Class 1, which hence forward will be a post-certificate, pre-University class, like a Sixth Form in England.

He uses the expression "academic curriculum" deliberately: for Mr. Burney stresses also the importance of providing in the curriculum rather more liberally for "the broad human needs" of the children.

It is the Director's intention, in point of fact, shortly to invite the Grant schools, or such as have not already taken the step, (and it is believed that many have) to fol-

SESSIONS TO COMMENCE ON MONDAY

NINE CASES ON LIST

One case of manslaughter, two cases concerning piracy on junks are included in the nine cases which will come up for trial at the next Criminal Sessions which will begin on Monday next.

The following are the cases: Pow Wah, 24, an unemployed bookkeeper and formerly an office-boy in the employ of the late Mr. F. C. Jenkin, charged with the manslaughter of Wong Lau, 15, a newspaper hawker, on board the s.s. Lee Hong on June 28;

Tang Cheong, 31, and Lau Mun, unemployed seamen, charged with piracy of a trading junk at Shau Tze Mun on April 29;

Tsang Yau, 30, Li Choi, 29, Chan Fat, 30, Lal Ping, alias Wong Kam, 31, and Chan Chuen, 21, charged with armed robbery on an unlicensed junk off Tung Lung Island on May 31;

Wong On, 40-year old clerk and interpreter in the Sanitary Department, charged with receiving a bribe of \$5 from one Yiu Shu;

Tsui Chu, 20-year old unemployed, charged with robbing, with violence, a Japanese woman named Ai Ichi Kawa at Eastern Hospital Road on June 21;

Lau Kwok-hang, charged with possession and uttering counterfeit coins.

Chan Kwan, 34, charged with possession of 201 counterfeit Hong Kong ten-cent pieces;

Lau Nam, 30, an earth cooler, charged with enticing away a seven-year-old child named Yeung Sik-ping;

Lau Sau-ying and Chan Sze, women, charged with uttering and possession of forged bank-notes.

RESIGNATION OF BRITON DEMANDED

(Special Air Mail Service)

London, June 27.

The resignation of Mr. A. Campbell, the British Commissioner of Chinese Customs at Tsingtao, and an apology by Sir Frederick Maze, Inspector-General of Chinese Customs, were demanded by a mass meeting of Japanese residents at Tsingtao, North China, yesterday.

They held a protest meeting over the recent firing upon a Japanese ship by Chinese Customs cutters.

Japanese allege that the ship was fired upon while adrift in a fog off the Shantung coast, outside Chinese waters, and that several of the crew were wounded.

The Chinese claimed that the ship was a smuggler, and that she opened fire first.

low the lead of the provided schools, and devote a reasonable period of time in school hours to regular Physical Training.

ALMOST THE SAME

The new examination, following broadly (mutatis mutandis) the lines of the old, requires of all, whether boy or girl, to show some attainment in English; in a second language; in the speculative Sciences (Mathematics and Science—Girls can take Domestic Economy for Science); and in the exact Sciences (History and Geography); and affords them the opportunity of showing their attainments also in a variety of optional subjects; the broad object being (as indicated above), while not neglecting those who contemplate pursuing their academic studies further, to provide a sound general education (and a useful certificate) for those, at least equally numerous, who normally leave school and enter employment at this stage.

The examination cannot and does not claim to be an external test; for although there is nothing to prevent the controlling Syndicate seeking individual examiners from outside, it is practically certain (and indeed implicit in the basic ideas) that it will mainly rely upon internal examiners. But, this being so, the machinery is designed to discount, so far as possible, the objections (real or imaginary) to such a system by stipulating for two examiners for each subject, one of whom the Grant schools will be invited to supply, while the other will be supplied by the provided school.

RAILWAY SABOTAGE IN PALESTINE

Jerusalem, July 14.

Railway sabotage continues in Palestine. Vandalism damaged the main line west of Jerusalem and the railway bridge near Tulkarem, by means of explosives, last night. Four houses in an Arab village near Jaffa have been dynamited by patrols because they harboured snipers.

Exemplary punishments imposed in the Palestine courts include eight years' penal servitude for an Arab found carrying Mills' bombs near Jerusalem, and five years on a resident of Hebron found with a quantity of bullets in his possession.

A sergeant of the Royal Lancashire Regiment was injured when a lorry in which he was doing patrol duty fell over an embankment.

MORE SUPPORT NEEDED

While there is no begrudging Kowloon residents' rightful clamourings for better street lighting and more amenities to cope with the rapid growth of the Peninsula during the past few years, it is a matter of the utmost regret to note that the poor enthusiasm, if any at all, shown on the part of the residents in the activities of the Kowloon Residents Association had to be deplored by a member at the annual meeting of the Association held earlier this week. To use the words of the speaker, "I am amazed to find so little enthusiasm on the part of the residents of Kowloon."

The attendance was meagre—a mere handful. It must have been most disheartening to the President and officials of the organisation, who, throughout the year, have laboured of their best to meet suggestions for the betterment of the welfare of residents. The annual meeting of this worthy Association, it need hardly be pointed out, is the one occasion in the year when Peninsula residents can air their grievances under the heading "any other business." Discussion on the matter may greatly assist the incoming Committee when they come to investigate and seek to solve problems to the best of their ability and to the satisfaction of the residents concerned.

The writer's criticisms of Tuesday's meeting are penned from personal observations. Apart from the President, Honorary Secretary and Honorary Treasurer, those present included six members of the General Committee, seven members and three lady members, out of a total membership of nearly 400! From these alarming figures it is obvious that enthusiasm in the Association's affairs is sorely lacking and something drastic will have to be done and done quickly to ensure its future. Kowloon residents owe a deep debt of gratitude for what the Association has been able to accomplish and it is only fair to the Association that the residents, as members, should play the game and give support unstintingly. The time to speak is at the annual meeting and if residents do not, or will not (which seems to be the case) take that opportunity to voice their opinions then their complaints may as well become household gossip.

A recent Rotary Club speaker put it very plainly when he stated that local residents were too prone to criticise among themselves and were too cowardly to get on the platform and vent their criticisms in public. That statement would seem to apply to the members of the K. R. A. A remedy might be suggested. Dispense with membership and form a representative body known as the Kowloon Residents Welfare Committee. We invite opinions.

SOUTHWEST DEFIES NANKING

Government Under Grip Of Traitors

CHARGE OF BETRAYING THE COUNTRY

And Currying Favour With The Enemy

Canton, July 15.

The Southwest Executive Committee and the Southwest Political Council to-day circulate a telegram denouncing the Second Plenary Session of the Kuomintang Central Executive Committee. The telegram is addressed to the Kuomintang Central Headquarters; the National Government; the Various Provincial and Municipal Governments; the Pacification Commissioners; the Commanders-in-Chief; the Commanders of Army Corps, Divisions, and Brigades; Various Overseas Party Headquarters; Various Overseas Chinese Organizations; Various Embassies, Consulates; Various News Journals; Various Mass Organizations.

A translation handed to the Central Press reads as follows:

C.E.C. DECISION ILLEGAL

Ever since Japan increased her garrison in Peiping and Tientsin and put North China in an extremely precarious position, we, the undersigned, have come to the conclusion that national perdition will not be arrested except by immediate resistance to Japan and that unless we concentrate all units of national strength, we shall be too frail in resistance.

Therefore, on the eve of the Second Plenary Session, the C.E.C. members in the Southwest, submitted for its consideration the minimum proposals for saving the country, namely: immediate severance of political relations with Japan; abrogation of all derogatory agreements concluded with Japan since September 18, 1931; immediate armed prevention of Japan's increase of garrison in the Peiping-Tientsin Area in contravention to the Boxer Protocol; protection of patriotic speech and revival of people's patriotic movements; and the immediate national mobilization for a war of resistance to Japan under the leadership of the Central Government.

We had hoped that these proposals would be adopted by the Government to correct its past error of submission, procrastination, and currying favour with the enemy.

GRIP OF TRAITORS

But from the time when it met till the day it closed, important resolutions of the Session have been nothing more than, first, the veto of the Southwest's five proposals, and second, the abolition of the Southwest Committee of the C.E.C. and the Southwest Political Council, all of which go to expose the fact that the Government under the grip of traitors has lost its freedom of will. In foreign affairs, it has openly stuck to its policy of betraying the country and currying favour with the enemy. In domestic affairs, it has moved the formerly anti-Communist troops to the South, with the view to starting a civil war.

Second, the Southwest Committee of the C.E.C. and the Southwest Political Council were established on the mandate of the Fourth Kuomintang Congress and cannot be abolished by a resolution of the Central Executive Committee. Therefore, the resolution of the Second Plenary Session of the C.E.C. abolishing the two organs is illegal and null and void.

EXTRAORDINARY SESSION

In order to carry out our policy of resisting Japan and saving the country and to carry on the revolutionary mission of the Party and on the initiative of the members of the C.E.C. and C.S.C. in Canton, we do hereby call within the shortest space of time an Extraordinary Session at Canton for the purpose of re-voting on the Southwest's five proposals for resistance and salvation and of considering the steps to be taken to carry them out. All other members of the C.E.C. and C.S.C. elsewhere are earnestly requested to attend this Session. Faithful to the late Dr. Sun's teaching on the People's Congress as the means to settle national issues, we shall within a short time call such a Congress at Canton for resistance

FINAL APPEAL TO CHEN

Urged To Avoid Civil War

INVITATION TO NANKING

Nanking, July 15.

Four prominent Cantonese members of the Central Executive Committee, Mr. Tang Shao-yl, Mr. Sun Fo, Dr. Wang Chung-hui and Mr. Hsu Chung-chi, have telegraphed a final appeal to General Chen Chi-tung urging him to avoid civil war and suggesting that he proceed immediately to Nanking to assist General Chiang Kai-shek in national defence work.

Official circles in Nanking prefer to make no comment on the formation of a separatist government in the Southwest until it is actually materialises.

Well-informed quarters, however, are dubious whether the Southwest will take such a step.

MILITARY OPERATIONS

There is every indication that the Central Government will start military operations against Kwangtung. Nanking troops will support General Yu Han-mow's men in the latter's effort to penetrate Kwangtung's strong defence.

The torch that, on July 20 will be lit at Olympia, that is a Greek village in Peloponnese for the purpose of conveying towards Berlin the flame wherewith the symbolic fire will be kindled at the sports stadium as the opening act of the Olympic games of 1936, will be carried by runners over a distance of two thousand eight hundred and fifty six kilometres, each man covering one kilometre where his successor will be waiting to convey the flame further.

The torch will pass by a route through Greece, Bulgaria, Yugoslavia, Hungary, Czechoslovakia and Germany and will continue to progress onwards despite all difficulties of the road and inclemencies of the weather.

More than five thousand Yugoslav athletes will participate in this ceremony during the passage of the torch through their country.

When the torch reaches the town of Opitene at 2 a.m. on July 26, the boy King Peter II, dressed as a Yugoslav athlete, will be waiting at the church to light a candle from the Olympic torch before the tomb of his father, the assassinated King Alexander I, called affectionately by his people, "Unifier of Yugoslavia," whose life work as King served the same purpose as the Olympic games themselves.

King Peter will then run the regulation kilometre, and hand the torch to the runner whose turn comes next.

NORTH CHINA SMUGGLING

More Questions In Commons

London, July 15.

In the House of Commons today, Sir J. S. Wardlaw-Milne (Con., Kidderminster) inquired the result of discussions with the United States on the subject of North China smuggling and whether it was expected they would lead to combined action.

Mr. Anthony Eden, who was cheered on his return from his holiday, replied that he had nothing to add to his previous answer. At present he did not think there was any further action the Government could usefully take.

The questioner remarked that it was a good many weeks since protests were made to Japan.

Lieut.-Comdr. R. T. H. Fletcher (Lab., Nuneaton) inquired whether British interests were seriously affected and also whether orders will be issued to the China Squadron.

Mr. Eden replied: "It is because British interests are affected that we have taken these steps."

China Merchants S.N. Company Decision

Shanghai, July 15.

The China Merchants Steam Navigation Company has decided to eliminate Canton from their ports of call.

An official of the company stated that three vessels will be affected by the decision, namely the Hai Tseng, Hai Yuan and Hai Heng.

They are required to cope with the heavy summer traffic in northern ports, but it is understood that the real motive behind the stoppage is in connection with the political situation.

LOCARNO POWER CONFERENCE

French Government Instructions

MEETING DESPITE THE ABSENCE OF ITALY

Little Hope Entertained For Practical Results

("Hong Kong Daily Press" Special)

Paris, July 15. Instructions have been despatched to the French Ambassador in London to notify the British Foreign Office that the French Government desires that the Brussels Conference be held even though Italy does not participate.

Paris newspapers declare that in London there is little inclination shown to participate in the Brussels Conference under the present circumstances, but believe that the British Government will ultimately allow itself to be persuaded to do as the French Government wishes, especially as the French view is shared by Belgium.

The press, however, entertains no concrete hopes that this conference would yield any practical results.

The radical "Oeuvre" asserts that France insists on the conference even if only France, Belgium and Britain attend, while the "Echo de Paris," organ of the heavy industries, confirms this, adding that in London the view prevails that it would be better to postpone the meeting until September because by that time the real support of the Austro-German agreement would have become apparent.

POSTPONEMENT URGED

London, July 15. Consultation is understood to have been proceeding with other interested powers in regard to the proposal made during the Geneva consultation between the British, French and Belgian representatives that the meeting of the Locarno powers should be convened at Brussels later this month.

Several editorials which discuss this question take the view that in the existing situation there are advantages to be gained by postponing the meeting until a later date.

The "Times," for instance, remarks that in any case the "first and immediate stage must be one of intensive consultation with other Governments. Thoughtful planning and careful preparation through diplomatic channels are

seen to be more than ever essential in the present intricate circumstances if early progress towards settlement of some of the main European difficulties is to be achieved."

ITALY REJOICES

("Hong Kong Daily Press" Special)

Rome, July 15. The celebration of the raising of sanctions, all Italy, at Mussolini's command is festooned in flags. The occasion is seized upon by the press for glorifying the patriotic spirit which enabled Italy to come through 241 days of sanctions war without harm. In fact, says the "Giornale d'Italia," Italy is stronger, firmer and more resolute than ever.

"Tribuna" declares that the lifting of sanctions means not only the admittance of their failure, but also the complete political capitulation of the "League of Nations," adding that "the super-state with which it was hoped to retard history, has now fallen to pieces."

The paper goes on to say that the conclusion of the Austro-German agreement, which happily coincides with the raising of the sanctions, shows the complete breakdown of the League of Nations and proves the constructive value of other methods. With the collapse of sanctions, the myth of collective security has also collapsed."

GREAT BLAZE IN BULGARIA

Hundreds Of People Homeless

("Hong Kong Daily Press" Special)

Sofia, July 15. A fire broke out in the Bulgarian Macedonian town, Bansko, on Tuesday afternoon, and at first it appeared to be a merely small local incident. It developed later, owing to a high wind, into a great conflagration.

The damage, assessed on Wednesday morning was not less than fifteen million Lewas.

The fire began close to a factory and spread rapidly. Fire brigades put up a heroic fight, but before the flames could be brought under control, one hundred and thirty seven houses, with numerous sheds, barns, and outhouses were reduced to ashes.

A considerable number of farm animals also perished, and seven hundred persons were rendered homeless. Under the circumstances it is a wonder that the loss of life was not greater.

Six persons were found dead beneath the debris, three being children and two women. But as several children are still missing, the death toll may prove to be greater.

During the night the Bulgarian Government sent a train to bring relief to the homeless, while thirteen hundred workmen from the neighbourhood and seven fire brigades from Sofia are engaged in salvage work.

The cause of the fire is still unascertained.

MOTOR RACING TRIUMPH

Great Achievement By Eyston

London, July 15.

The striking motor-racing triumph of Captain Eyston and his assistant Denly on the salt flats of Utah which regained the 48 hours world record and 16 other records for Britain was achieved in a shade temperature of 110 degrees by day and in a fierce wind at night on a track which in parts was breaking up badly.

Their car with a 480 horse-power Rolls Royce engine had maintained an average speed for two days and nights of 136.34 miles per hour, but this would have been even higher had it not been necessary as a safety precaution during the heat of the afternoon to hold her back to 125 miles per hour. Only small circuits could be used which further reduced speed.

Nevertheless the car's tools and spares were untouched throughout and Captain Eyston described the engine as mechanically perfect. It was ticking over sweetly after its terrific journey of 6,545 miles—10 ger than the journey from Southampton to New York and back done in two days.

The previous 48 hours record held by three Frenchmen, Perrot Dhorne and Girod, was 5,253 miles and this distance Eyston and Denly passed with nearly eleven hours to spare.

CHOLERA GERMS AT LARGE

Serious Incident At Alexandria

DRUNKEN SAILOR RESPONSIBLE

("Hong Kong Daily Press" Special)

Alexandria, July 15.

A drunken sailor from a British vessel broke into the bacteriological laboratory of the Harbour Administration, and smashed a glass container full of cholera bacilli.

Although officials of the Ministry for Public Health declare that cholera germs raised in this way soon perish in the open air, the government authorities ordered extensive precautions to be taken against an outbreak of epidemic.

Over three hundred persons who had come in contact with the sailor were immediately given protective injections. Among these persons were workers of the laboratory, Egyptian and British officials (police) and part of the crew of the cruiser London.

If no cholera cases develop by Thursday, the matter can be regarded as satisfactorily disposed of. If, however, symptoms of the disease occur, then the whole population of Alexandria will have to be inoculated.

Paris Celebration

("Hong Kong Daily Press" Special)

Paris, July 14.

The "Fete" of the 14th July was celebrated here in the customary fashion, the only difference from other years were the prominently displayed flags, whilst in former years only official buildings, banks and great department stores hoisted the Tricolor, this time the population displayed flags to show the adherence to their parties.

Whilst the Popular Front members showed the Tricolor together with Red Flags, with three arrows for the Socialists and sickle and hammer for the Communists, or attached these emblems to the Tricolor, the right wing parties adherents only showed the Blue, White, Red Flag of the Republic.

M. Leon Blum, in a broadcast speech appealed to the Popular Front adherents to be patient and not try to hasten the reform measures, in view of the danger of the reaction, which waited for the chance of revenge.

SELLING NAVAL SECRETS

Former U. S. Navy Man Charged

DEALINGS WITH JAPANESE

Washington, July 14.

After months of veiled investigation, police have arrested John S. Farnworth, former lieutenant-commander in the American Navy, on a charge of selling naval secrets to Japan.

The authorities claim to know the name of the Japanese officer to whom Farnworth allegedly delivered information and hint at the likelihood of an early arrest.

When arraigned, Farnworth pleaded not guilty.

The warrant charges him with delivering to a Japanese naval officer a book entitled "The Service of Information and Security, United States Navy Confidential Publication."

Interviewed, Farnworth said he had talked with representatives of some "Oriental Government about the possibility of his going abroad to organise an aviation corps. He did not know whether the government concerned was Japanese or Chinese.

He denied that he knew anything about any confidential papers, but some papers relating to naval matters had been stolen from his home, he declared.

The authorities allege that Farnworth was discharged from the service nine years ago charged with conduct prejudicial to the Navy.

PRODUCTION OF MUNITIONS

Vice-Admiral Brown Appointed

London, July 14.

In the House of Commons to-day, the War Minister, Mr. A. Duff-Cooper, announced the appointment of Engineer Vice-Admiral Sir Harold Brown as Director-General of Munitions Production, who will be responsible for co-ordinating and expediting the production of munitions, in accordance with the Government's programme.

The fact that Vice-Admiral Brown becomes an additional member of the Army Council in connection with the new post has created a great stir in Service circles.

It is probably the first time that an Admiral has sat on the Army Council, and signs are not lacking that the War Office regards the appointment dispassionately. But Vice-Admiral Brown has achieved outstanding success in his previous posts, and the latest appointment indicates the Government's desire to bring the Army organisation up to the highest possible standard.

BRITISH SHIPBUILDING REVIVAL

Increased Tonnage Figures

CUNARD-WHITE STAR CHALLENGE

Munition Factories To Go At Full Blast

London, July 15.

Continued revival in British shipbuilding is recorded in returns of merchant vessels in Lloyd's Register for the quarter ended June. In England and Ireland alone there was an increase of 8,371 tons works in hand compared with the figures for the previous three months.

Tonnage under construction, 848,732 exceeded by 288,411 tons or upwards of 50 per cent that being built at end of June 1935 and was the highest quarterly total recorded since December 1930.

It exceeded the aggregate tonnage under construction in four leading countries abroad. About 64,000—7.8 per cent on tonnage being built—are intended for registration abroad or for sale.

The leading countries abroad are: Germany 365,179 tons, Japan 158,811 tons, Holland 148,095 tons, Sweden 124,250 tons, U.S.A. 90,275 tons, Denmark 71,620 tons.

The total tonnage under construction in the world amounted to 1,951,005 tons, of which 43.5 per cent was being built in Great Britain and Ireland.

In Great Britain and Ireland construction was begun upon 282,322 tons during the last three months, an increase of nearly 50,000 tons compared with the corresponding total for the March quarter.

British Wireless.

UNSURPASSED ACTIVITY

London, July 15.

Unsurpassed activity in all British shipyards is forecast. Lloyd's report for the June quarter discloses 848,732 tons of building in British and North Ireland shipyards, 50 per cent, above last year. The highest quarter since 1930 was 43 per cent of the world's shipbuilding, Russia excluded, of which figures are not obtainable.

The Cunard-White Star Line contemplate at least eight new liners, apart from the sister ship to the Queen Mary, completely modernising the fleet and challenging the world that they will specialise in intermediate steamers luxuriously fitted at popular prices.

Government rearmament plans mean that every naval shipyard will be occupied for six months. Hence with vessels from 33,000-ton battleships to submarines, engine works, boiler works, gun and armour plate factories will be very busy. Range finders, fire control apparatus and optical glass will entail orders for millions of pounds. Plants which have been idle for many years will be going full blast.

The "Daily Telegraph" naval expert, Mr. Hector C. Bywater, says that Sheffield alone will construct 24 fourteen-inch guns, 110 six-inch guns, 200 4.7 and five-inch guns, and 30,000 tons of the finest armour plate.

The reconstruction programme is expected to continue at least till 1942.

New Gymnasium Opened

LADY CALDECOTT PERFORMS CEREMONY

The opening ceremony of the new Eu Tong Sen Gymnasium of the Hong Kong University was performed yesterday afternoon by Lady Caldecott.

As the name implies, the gymnasium was presented to the University by Mr. Eu Tong Sen, who, as His Excellency afterwards described, "is a man who delights in rendering public service and performing acts of benevolence unostentatiously." The building itself is a very fine one for its purpose. Spacious and possesses all the conveniences and necessities for the development of the physique of the students.

His Excellency, the Governor and Lady Caldecott arrived at about 5.10 p.m. and proceeded immediately to the gymnasium, which is on what used to be the Hockey and Football ground, and they were met by Sir William Hornell and Mr. Eu Tong Sen.

Mr. Eu presented Lady Caldecott with a gold key with which the door to the gymnasium was opened. Visitors then inspected the building. After the ceremony the party adjourned to the University Great Hall where tea was served.

At the conclusion of tea, Sir William Hornell, the Vice-Chancellor of the University, said:

A GREAT ACT

The Gymnasium which Lady Caldecott has just opened, the University owes to the generosity of Mr. Eu Tong Sen. The Gymnasium will always bear his name. The combined basketball and badminton court, which is just outside the Gymnasium, is the gift of Mr. Sum Pak Ming.

Both of these gentlemen have done a fine thing. They have placed at the disposal of youth, greater opportunities for recreation and physical development.

In the name not only of the University but also of all those young men and young women who are here now or are to come, I thank you both.

Sir William Peel always wanted a gymnasium and to whom should he go but to Mr. Eu Tong Sen. I supported his view. The University is, in any opinion, under an obligation to place at the disposal of all its students—women as well as men—facilities for physical training and development. Without a gymnasium the fulfilment of this obligation is difficult.

Mr. Eu Tong Sen has not only built the Gymnasium; he has also equipped it. The apparatus has been ordered but it has not yet arrived. The apparatus that you saw in the Gymnasium has been kindly lent us by King's College. It has been set up to show the general location which Mr. Eu's brand-new apparatus will occupy. You will have noticed that the Gymnasium provides for a full size basketball and badminton court.

SWIMMING POOL TO COME

Some would have preferred a swimming pool. Well, the Gymnasium has been so constructed as to permit of a swimming pool being provided alongside of it. The swimming pool site has been marked out, and the probable cost of the pool estimated. We await a donor.

We hope, and indeed expect, that some one will be this very afternoon so fired by the sight of Mr. Eu's Gymnasium that he will rush forward to claim the privilege of putting a swimming pool alongside it.

The members of the recently established Alumni Association will also doubtless have noticed that there is still room on the old football ground for 3 or 4 lawn tennis courts on the lines of Mr. Sum Pak Ming's basketball court, and will see to it that at least one such tennis court is put in hand at once.

The tea which we have just enjoyed is also Mr. Eu Tong Sen's gift. The University Treasurer would never have allowed me to provide, out of University funds, so ample and delicate a repast, even if I had assured him that we were casting our bread on the water trusting that it would come back to us in the form of a swimming bath or at least of tennis courts.

In the name of you all I thank Mr. Eu Tong Sen for his generous hospitality.

On the University's behalf, I welcome His Excellency, our Chancellor and Lady Caldecott and thank them for coming here this afternoon. This is Lady Caldecott's first visit. We hope that the impressions which she will carry away, will be happy ones and that she will often come again.

In conclusion I have to thank Mr. G. G. Wood of Messrs. Leigh

and Orange our Architects, and Hop Sang Construction Company—the Contractors. We have received valuable advice and help from the General Military Staff and our special gratitude is due to the Hon. Mr. G. R. Clegg-Hill of the Royal Welch Fusiliers who has come here several times and advised us about Gymnasium Apparatus. We have not yet finished with this officer, nor with Colonel H. C. Harrison.

BOUQUET PRESENTED

Replying to Sir William, Mr. Eu said: I do not wish to prolong the proceedings, yet I feel I must say a few words to thank Lady Caldecott for coming here this afternoon and performing the opening ceremony.

I very much appreciate the fact that my name has been associated with the building and the very nice things that have been said about me by Sir William. I wish to thank Sir William and Mr. Finigan for making this function a success, and lastly I hope that the students will make full use of the new gymnasium.

At the conclusion of this speech, Lady Caldecott was presented with a bouquet of flowers by Eu King Wai the young son of Mr. Eu Tong Sen.

DONOR THANKED

His Excellency, the Chancellor of the University then said:

My wife and I regard it as a splendid augury for our happiness in Hong Kong that the first opening ceremony in which we are privileged to participate should be that of a building which owes its existence to an old Malayan friend. We were married in Malaya, my wife indeed was born there, and we sometimes find ourselves utilising your glorious Hong Kong sunsets for reminiscences of good days that are past, over what we still dare to allude to, and call for, as a "stengah." And so our memories go back to 1918, when I had to curtail our honeymoon because I was needed, a clerk for a meeting of the Federal Council. And that is where Mr. Eu Tong Sen comes into the picture; not on our honeymoon, I mean, but on the Council.

It was as a member of the Federal Legislature that I first met Mr. Eu and had the privilege of congratulating him when his name appeared in His Majesty's Honours List in 1919. Mr. Eu is a man who delights in rendering public service and performing acts of benevolence unostentatiously, and I will not embarrass him now by particular mention of his benefactions—though one, to the Singapore Silver Jubilee Fund for the distressed of that city, is very fresh in my memory and gratitude. But as Chancellor of this University I cannot fail to thank him very heartily for the gift of this magnificent gymnasium. Owing to the present financial stringency I have refrained from suggesting to the Finance Committee of our Legislative Council the addition to our Colonial Establishment of a Poet Laureate, who alone could do justice to an occasion like this! There is nothing for it therefore but that I should try to deputize for that as yet hypothetical functionary.

Successive titles of growing men shall bless the name of Eu Tong Sen; For all will owe, who use this gym.

Their muscular content to him. How nice if every one of you should emulate kind Mr. Eu!

THOSE PRESENT

Among those present were: His Excellency, the General Officer Commanding, Major-General A. W. Bartholomew and Mrs. Bartholomew, Mrs. Eu Tong Sen, Mr. Sum Pak Ming, Commodore and Mrs. C. G. Sedgwick, His Honour, the Chief Justice, Sir Atholl and Lady MacGregor, Sir Shou-son Chow, the Hon. Mr. M. K. Lo and Mrs. Lo, Dr. R. H. Kotewall, the Hon. Dr. S. W. T'so, the Hon. Mr. E. RECREIO TO BY TESTED

IN THE 'C' DIVISION TENNIS LEAGUE

Of a full programme of matches for to-day the most important will be that between the Club de Recreio and the South China at King's Park. Both teams are well in the running for the Championship but the chances of winning are in favour of South China, as several of the Recreio's players have been transferred to the senior division. Craigengower are at home to the I. R. C. and should win quite comfortably. The Army meet the K.C.C. (1) on their own courts and should just win.

The programme for to-day is:—C.R.C. v. K.I.T.C. C.C.C. v. H.K.U.T.C. K.C.C. (2) v. K.T.G.C.A. A.T.C. v. K.C.C. (1). C.C.C. v. I.R.C. C. de Rec. v. S.C.A.A.

K.C.C. v. H.K.C.C. At the K.C.C. yesterday the home team defeated the Hong Kong Cricket Club in a close contest by five sets to four in the "B" Division of the local tennis league. No fewer than four of the sets were drawn, but S. A. Gray partnered by A. Crawford defeated V. R. Gordon and A. C. I. Bowker in the final set by 6-0, settled matters in favour of the Cox's Park men.

A. W. Ramsey and G. C. Burdett (K.C.C.): beat J. Rodger and D. B. Evans 6-1 drew with G. E. R. Divett and T. C. Monaghan 6-6 drew with V. R. Gordon and A. C. I. Bowker 6-6 S. A. Gray and A. AMAR NATH MAY RETURN Indian Test Player Who Was Sent Home.

London, July 14. Major Ricketts, manager of the All-India cricket team, in a statement made yesterday, said that the Maharajkumar of Vizianagram, captain of the team, is completely willing to accede to the Indian Board of Control's request to take back Amar Nath, now that the effect of his necessary disciplinary action had been felt.

A message from Bombay is to the effect that the Nawab of Bhopal, in a statement yesterday, said that the announcement that Amar Nath would return to England immediately was wholly unauthorized and premature.

An earlier report from New Delhi stated that the Nawab of Bhopal, President of the India Cricket Board had sent a personal letter to the captain and manager of the Indian cricket team touring England, that they should recall Amar Nath, and ask him to come back to England as soon as possible so as to be in time for the second Test at Manchester on July 25.

Amar Nath has promised to apologise and to behave in future. The view is taken that he has already been sufficiently penalised, and there may be serious repercussions unless he is recalled.—*Reuter.*

BERLIN OLYMPIC GAMES Flags On Public Buildings

"Hong Kong Daily Press" Special. Berlin, July 15. Public buildings will be decorated from August 1 to 18, states an order of the Ministry of Propaganda, while those serving for reception or departure of teams can fly flags both before and after these dates. The flags which may be hoisted are the German flag, the Olympic flag and the flags of the nations participating in the Games. In the latter case the Greek flag must come first, while the German flag, as that of the organising nation, comes last. The other nations being in alphabetical order.

At the same time the population of the German capital is requested to display the German flag from the house from July 20 to August 20. The Olympic flag and the flag of other nations may also be flown.—*Transocean News Service.*

Open Rinks Championship

Regarded by many as one of the most likely finalists in the Open Rinks Championship, the combination of A. M. Omar, K. M. Omar, D. Rumjahn and U. M. Omar (skip) gave a poor exhibition of bowls yesterday on the Talkoo green where they met the rink comprising B. S. Rogers, K. C. Hamilton, J. S. Logan and J. G. Meyer (skip). They won by 21 shots to 16.

At one time the winners were being led, and that was at the 10th head when they had only 10 shots to their credit, while the losers had 15. Good play on the part of U. M. Omar, enabled them to lead at the 13th head, the score then being 16 shots to 15. Rattled by the sudden reverse, the losers were unable to do anything right, although the victors were not playing well at that stage.

From the 13th head onwards the losers were unable to score, thus allowing the victors to clinch the game.

SIND MISSES \$13,000 STAKE FOR AGA KHAN

Placed Second

FRENCH FAVOURITE SCORES

BY HOTSPUR

(Special Air Mail Service) Paris, June 28. The Aga Khan, owner of the first and second in the English Derby and whose horses have won over \$21,000 on the English Turf this season, just failed to capture the Grand Prix de Paris, worth \$13,000, at Longchamp this afternoon.

His colt, Sind, ridden by Charles Smirke, who steered Mahmoud to victory in the Epsom Derby last month, was beaten by a length and a half by the French Derby winner, Mieuxcé, owned by M. Ernest Masurel.

The Far-mutuel odds were 5 to 2 against Mieuxcé, and Sind paid 5 to 1 for a place.

Mieuxcé started a warm favourite. Sind, who did not represent anything like the best of the English classic form, was an outsider.

STRONG CHALLENGE Nor was there much confidence in the other English runners—the Earl of Carnarvon's His Grace and Sir Abe Bailey's Foxfield.

Both His Grace and Foxfield were out of the contest when the field of 20 runners swept into the straight. Then it was that Mieuxcé came up on the outside and was soon in the lead.

He stayed on splendidly, and though Smirke challenged strongly on Sind he was no match for the French horse.

Towards the end of the race Mieuxcé, it was alleged, pressed up against Sind, somewhat hindering the colt's progress. The Stewards decided, however, that there was no foul and Mieuxcé was declared a fair winner.

It would not be the Grand Prix unless the start was an hour late, but, curiously enough, the English colts were the least affected of all by the long wait in the stifling paddock.

BROADCAST FROM PADDOCK After the race everyone connected with the winner, except the lad who brought the colt to the meeting, broadcast from the paddock.

A great figure at the microphone was Mieuxcé's trainer, Elijah Cunningham, who, in his white bowler hat and check tweed suit, was a speaking likeness of what a Frenchman imagines John Bull to be.

WHAT PEOPLE ARE SAYING

"America is deliberately taking little or no part in the vitally urgent business of taking the world by the scruff of the neck and making it behave itself."—Mr. Herbert Morrison, M.P.

"There is strong reason to hope that 1936 will not prove to be the peak of the upward movement."—Mr. Reginald McKenna.

"Dictators are undoubtedly doing a great deal for the health of the young. I doubt whether this country is doing as much."—Sir Edward Grigg, M.P.

"It is the rank and file who provide the main strength of the country."—Major Ian Hay Berth.

THE EMPIRE "I hope that some day the British people will realise the service Italy has performed for their Empire by the campaign in Africa."—Signor Mussolini.

"No part of the territories now under British rule would willingly exchange that rule for any other."—Mr. Ormsby-Gore, M.P.

"We need more people in Canada, and we should start straight away in a moderate fashion to induce settlement in Canada by Anglo-Saxons."—Sir Edward Beatty.

SANCTIONS "I think it right that the League should admit that sanctions have not realised their purpose and should face the fact."—Mr. Eden.

"The man who puts sanctions on or allows this country to do so, unless he has done all in his power to see that the people can be defended at home, is not fit to carry the responsibility of governing his country."—Mr. Baldwin.

ENGLISH TENNIS GIRLS BEATEN

MISS STAMMERS LOSES TO POLISH PLAYER

Miss Round's Bad Luck

(Special Air Mail Service)

London, July 1.

The only two English players to reach the last eight of the women's singles championship at Wimbledon were beaten yesterday. Miss Kay Stammers lost to Miss Jawiga Jedrejowska, the Polish girl, 6-2, 6-3, before a crowded Centre Court gallery which included Sir Samuel Hoare, First Lord of the Admiralty, who is President of the Lawn Tennis Association.

On Court One Miss Dorothy Round, who won the championship in 1934, was defeated by Mrs. S. Sperling, of Denmark.

Miss Round's defeat will be attributed by many people who saw it to an incident in the second set. The English girl lost the first set 3-6 and Mrs. Sperling was leading by four games to two in the second.

WINNER IN TEARS Miss Round then asked Mr. F. R. Burrow, the referee, for permission to leave the court for a few minutes, as she had broken a shoulder strap. Her request was granted, and she was about to leave the court when Mrs. Sperling said that she would get cold if she was left standing on the court.

Miss Round thereupon waived her right to interrupt the match, but her concentration was obviously affected. Her opponent won the second set for the match 8-6. Mrs. Sperling was very upset, and was in tears as she came off the court.

"It was rather a tall order to ask Mrs. Sperling to stop the match when she was leading 4-2," she added. "I am sure she would have stopped if I had insisted, but she said that while she was waiting she would get cold."

Mrs. Sperling would not discuss the matter, but her husband told me that he considered she acted quite rightly.

"I would not have minded if Miss Round had asked to leave at the end of a set," he said. "But to suggest interrupting a set in the middle seems to me to be asking too much."

The last four in the women's singles are Miss Helen Jacobs (United States), Miss Jedrejowska (Poland), Mlle. Mathieu (France) and Mrs. Sperling (Denmark).

sanctions was merely cutting off our nose to spite our face."—Bridges-General Sir Terence Kyles.

"The only way in which the authority of the League can be exercised is by the employment of the policeman's truncheon against the gangster."—Lord Wolmer.

"The policy of sanctions has never been tried out."—Miss Lloyd George.

THE NAVY OF CIVILIANS

WORK AND PLAY IN
THE R.N.V.R.

Training At Home
And Afloat

Larger Bounties To
Be Given

London, June 28.
The Royal Naval Volunteer Reserve is a force of officers and men, not seamen by profession, though many are yachtsmen, who voluntarily train themselves in naval work in their spare time, partly by drills at local headquarters, partly by periods of training in ships of the Fleet and the naval instructional establishments, so that it may be immediately available for the Navy in the event of war.

Its total strength, which is now about 5,000 officers and men out of an establishment of 5,990, was augmented to 38,000 during the War, when it performed excellent service in all parts of the world, both afloat and ashore.

It has executive officers of all ranks, a large number of medical and dental officers, together with seamen, signallers, telegraphists, artificers, and a few engine-room, electrical, and ordnance artificers and writers. The men can enrol for five successive periods each of four years, and receive the usual free kit. Pay is given while undergoing naval training, together with a marriage allowance to the wives and children under fourteen, of men who are over twenty-one. Annual bounties of £3 are also paid to those volunteers who make themselves "efficient," and this is shortly to be increased similarly to the bonuses granted to the men of the Territorial Army.

DRILL AND SPORT.

The R.N.V.R. rather corresponds to the Territorial Army, and is organised in eight divisions—London, Clyde, East Scotland, Severn, Mersey, Sussex, Tyne, and Ulster. All of these have their headquarters for drill and other activities, most of them consisting of stationary ships. Some of the divisions have outlying units, and the social side of life is not forgotten. Swimming, physical exercises, boat sailing and pulling, rifle matches, boxing, football, week-end camps, dances, whist-drives, and other events are constantly being organised.

During their first year's service volunteers must attend forty drills at headquarters or an outlying unit, each drill lasting one hour. Twenty-four drills are required in each succeeding year. In addition six weeks' training in a sea-going ship or naval establishment must be performed during the first period of enrolment, though more can be undertaken if men desire it. In each period of four years they may volunteer for a cruise lasting three months, and men who go to sea for the spring cruise of the Home Fleet spend most of their

time abroad, thus getting an excellent opportunity of seeing something of the world—and being paid for doing it. Volunteers can go for their training at practically any time convenient to themselves, thus enjoying a considerable advantage over the men of the Territorial Army, who must attend camp at a specified date each year.

Except for chaplains, the R.N.V.R. has no further vacancies for officers. But there is room for recruits, particularly for the wireless and visual signalling branches. Australia, Canada, New Zealand, South Africa, Kenya, Hong Kong, and the Straits Settlements all maintain their local R.N.V.R. Divisions, though, so far as the United Kingdom is concerned, large areas, in which there must be many desirable recruits, remain untouched. Plymouth, Southampton, Cowes, Portsmouth, Hull, Grimsby, Great Yarmouth, and Lowestoft are all cases in point. An expansion of the force, and the provision of a few extra drill-ships, could be brought about at comparatively little expense.

THE R.N.W.A.R.

There is an Auxiliary Sick Berth Reserve of something over 1,200 men, but the last-formed reserve of all is the Royal Naval Wireless Auxiliary Reserve, with its total strength of 547. The sum of £625 is quoted as its cost in the 1935 estimates. With its district commanders and section lieutenants, it consists of amateurs all over the country, who undergo training in Morse and wireless during peace, and, in return for certain privileges, promise to serve in the Navy in time of war or emergency. Its members have no uniform—merely a badge. Nor do they undergo any regular naval training, though certain of them were embarked on H.M. ships for the period of the Jubilee Review.

An extension of this force also, with the provision of uniforms and facilities for training at sea and in the naval depots and signal schools, would help to prevent any recurrence of the acute shortage in wireless ratings that occurred during the Great War.

NAVAL BOYS' CORPS.

There are Boys' Corps for lads of between twelve and seventeen attached to the Sussex and Clyde Divisions of the R.N.V.R. with a total strength of about ninety. R.N. Volunteer Cadet Corps for boys of eight to sixteen, with a combined strength of about 550, also exist at the naval depots and instructional establishments at Portsmouth, Chatham, and Devonport, while there are Royal Marine Volunteer Cadet Corps, total strength 480, at the Royal Marine Barracks and Depot at Chatham, Eastney, Plymouth, and Deal.

Sea Cadet Corps, which are also officially recognised, also exist all over the country. To these the Navy League contributes about 1,500, Marine Society 136, Church Lads' Brigade 216, Scarborough Education Committee 62, Watts' Naval Training School 218, and the British Sailors' Society 112. It should be added that Scarborough has a sea-going tender in the shape of the Mistle Graham, a schooner of 100 tons.

These juvenile organisations, with their total strength of about

HOTELS CLOSE DOWN IN RIVIERA

VISITORS' DILEMMA

Making Own Beds

Nice, June 28.
More than 1,000 hotels on the Riviera closed down at noon today. All the proprietors ordered the main entrances to be shut, and notices were put up stating "hotel closed."

The notices also gave the reasons for this extraordinary measure, which was decided upon late last night by the Federation of Hotel Proprietors of the Alpes Maritimes district. The proprietors, it is explained, wished firstly to support the owners of the hotels at Cannes which had been occupied by their striking staff for the past week. Secondly, they wished to protest at the imposition of the 40-hour week and wages increases, which they maintain will ruin their business.

Here some 450 hotels closed their doors this morning. The only notable exceptions were the hotels de luxe—Negresco and Ruhl on the Promenade des Anglais and four others, which were requested to remain open by the Federation.

At the first two establishments the staff themselves refused to obey the "close down" order, maintaining that they had no demands to make of the management.

Some 1,200 visitors in Nice alone are affected by the closing down of the hotels. Not more than 100 are British.

The hotel visitors were informed by the management that they would be able to stay as long as they pleased, on condition that they did everything for themselves.

CARRYING LUGGAGE

Those visitors who decided to leave were obliged to take their own luggage downstairs. Those who stayed were forced to make their own beds, clean their rooms, and buy provisions for to-morrow's breakfast.

No new visitors are admitted to the "closed" hotels.

By special arrangement among the proprietors the Hotel Provencal and other leading hotels at

EQUIPMENT STAFF

Wing Commander Walter Thorne, promoted in the midsummer list, is appointed to-day to the Directorate of Equipment, Air Ministry, as is also Squadron Leader A. E. Sutton-Jones.

Wing Commander Thorne was appointed in October last to the equipment staff of the Aden Command in connection with the special measures taken last year.

He had formerly been serving in Iraq. From 1927 to 1934 he was on the equipment staff of the Western Area, Andover. Squadron Leader Sutton-Jones comes from the command of the Packing Depot at Sealand, Chester, where he is succeeded by Squadron Leader L. H. Vernon.

THE SPITFIRE

It is announced in Air Ministry Orders that the name of the Supermarine single-seater fighter fitted with Merlin engine is Spitfire. The relevant air publication is No. 1565A. A description of the new machine, which was present at Hendon on Saturday and is the fastest military aeroplane in the world, appeared in "The Times" of June 19. It has been ordered in quantity for the R.A.F.

OIL NEAR THE KING'S RANCH

RICHEST STRIKE IN RECENT YEARS

Source May Be On Royal Property

Calgary, June 28.
King Edward's E. P. ranch, south-east of here is believed to be the source of the richest oil strike in recent years. The ranch was leased in 1930 to the then Prince of Wales under a 99-year lease, and also includes oil and mineral rights.

The lease is believed to be the only one of its kind granted to an individual or an oil company signed by the late American Government. No publicity was given to it at that time, and there was no suggestion that oil was present anywhere in the immediate vicinity.

The reason that oil and mineral rights were included, it is stated here, was to prevent exploitation of the property by oil companies following the 1930 oil boom. Oil experts here believe that a rich crude-oil pool which was tapped south of the Turner valley recently in direction to the King's ranch and possibly the source of the pool lies within the Royal property.

The terms of the lease provide that if the King ceases to hold the surface rights of the ranch he automatically relinquishes the oil and mineral rights.

Juan les Pins and Antibes are remaining open.

At Cannes the situation between owners and staff is reversed. Only the hotels Martinez, Miramar, and Savoy remain open. At all the others the staffs are occupying the premises, but refuse to work.

This evening the Prefect told me that he thought an arrangement was in sight, and he hoped that the hotels would reopen to-morrow.

The Riviera transport strike has been settled. Buses and trams will start running again to-morrow.

A WARM WELCOME FOR MR. BALDWIN

ARMAMENTS AND PEACE

The Search For Security

(Special Air Mail Service)

London, July 15. After a few days' needed rest at Chequers Mr. Baldwin returned to duty yesterday. He was warmly greeted by the House of Commons when rising to answer a question, and later in the evening had an enthusiastic reception from the members of the City Conservative Association who entertained him at dinner.

The following are among the chief points in the Prime Minister's speech last night: "I have learned that I was breaking up and that my resignation was imminent. There is not one word of truth in those statements. I retire when I think fit. The first moment that I feel myself to be incapable of sustaining the burden which now rests upon me, I shall be prepared to pass it to other hands, and I shall be no light judge of what the requirements of that position are. But it is for me to decide, and for no one to dictate to me."

The nations of the world, less those Great Powers, have done what they can, but the action of the "sanctions" imposed was not swift enough in practice to effect what we had all hoped might be possible. And there came a point when further pressure might well have led to war.

KEEPING OUT OF WAR

War is a very terrible thing, and when once it is let loose in Europe no man can tell how far it will spread, and no man can tell when or how it will stop. I am quite content, in these circumstances, to be called a coward if I have done what I could, in accordance with the views of every country in Europe, to keep my own people out of war.

Last year during certain developments in Europe, and from what I had learned of the practical effect of imposing sanctions under the Covenant of the League, I was convinced that, if this country was again to be prepared to impose "sanctions" against any country, she should not do it with her eyes shut, but she should know that the imposition of "sanctions" may very possibly, may very probably, bring war in its train.

If we are to do that she must know the effect before she embarks on "sanctions" again, and must prepare herself so that she can fulfil those obligations under the Covenant in any circumstances.

During these last 14 or 15 years I have tried, so far as I can, to lead this country into the way of evolutionary progress, and to try to warn it against revolutionary progress, and tried to bring about a unity of spirit in the nation.

SHARING PROSPERITY

Our progress, to my mind, can never rest upon secure foundations until others share it. There can be no such thing in the long run as prosperity of an isolated nation.

None of us can see how it is to be done yet—the fog is too thick. But until the trade of the world once more begins to move from one country to another and goods can be exchanged and paid for, until that happens there is no permanence to the security we have gained.

While we all know that we have got to go on, and go on quickly, with this matter of armaments, it is driven in upon us once more, the mad folly of Europe to-day in the expenditure she is making on armaments at the sacrifice of her international trade.

We have to do what we can by our conversations with foreign countries to show the folly of this, which, if protracted too long, may bring ruin to us all. We have still to hold on, that sooner or later it may be possible once again to discuss a reduction of armaments. If and when that time comes we must all of us throw our weight into it.

It is our strongest desire to bring together France and Germany, without whose collaboration no peace in Europe is possible. I still hope that in these next months we may see progress to the goal which we all desire.

QUEEN MARY TO HAVE A SISTER SHIP

FASTER AND LARGER

Saving Of £250,000 In Cost

(Special Air Mail Service)

London, July 15. "The Daily Telegraph" learns that the £5,000,000 order for a sister ship to the Cunard-White Star liner Queen Mary is to be placed with John Brown and Co., Clydebank.

Although several other firms tendered for this contract, the decision to place it with the builders of the Queen Mary was influenced by the fact that a saving of £200,000 to £250,000 in the cost will be effected.

Had the keel of the new ship been laid at another yard, it would have been necessary to lengthen and reinforce the building slip, and to produce an entirely new set of patterns, not to mention possible dredging operations in preparation for the launching. This work has been carried out at Clydebank for the building of the Queen Mary. Construction of a sister ship will, therefore, be in the nature of a repetition job.

"NO. 535"

The new ship will have approximately the same dimensions as the Queen Mary, but her gross tonnage will be 33,000. The existing liner's tonnage is 30,773.

The propelling machinery will embody a number of novel features based on progress in marine engineering since the Queen Mary was designed over six years ago. The new ship will be faster and more economical to operate.

While on the stocks she will be known as "No. 535"—as the Queen Mary was known as "No. 534." At her launch, probably early in 1938, she will be named King George V. The Clyde Trust, which is responsible for navigation conditions on the River Clyde, has satisfied the Cunard-White Star directors that no undue risk will attend the launching and down-river voyage of a ship even larger than the Queen Mary.

TWO £5,000,000 BATTLESHIPS

In consequence of the placing of this £5,000,000 order on the Clyde, the Government will, it is understood, allocate contracts for the two battleships of the current Naval programme to other areas. It is regarded as certain that one will be built on the Tyne by Vickers-Armstrong, of Walker, in collaboration with Swan Hunter and Wigham Richardson, of Wallsend.

The second may be built on the Mersey, but the placing of contracts will be determined by a due regard for local unemployment conditions and competitive prices. Each battleship will have a displacement tonnage exceeding 30,000 and is likely to cost at least £8,000,000. Of this 85 per cent. will be spent on wages.

"SPLENDOR"

What happens when a spirited Southern beauty marries into one of New York's "first families" and is ruthlessly sacrificed in the battle to preserve their crumbling grandeur is depicted in dramatic fashion in "Splendor," the new Samuel Goldwyn film which brings Miriam Hopkins to the King's Theatre to-day. Joel McCrea, last seen with her in "Barbary Coast," again appears opposite the star, in this Rachel Crothers' story.

All that remains of the once-great House of Lorrimer is its Fifth Avenue mansion, dominated by the imperious and embittered old Mrs. Lorrimer, whose schemes to recoup the family fortune by marrying her son Brighton to an heiress are shattered when he brings home his pretty but penniless Southern bride, Phyllis Manning.

The story reaches a gripping climax when the selfish and ambitious dowager pushes the girl into an affair with a wealthy and influential man, and wrecks her marriage. But love comes to the rescue and brings the young husband to his senses and the film fades out with the pair finding ineffable splendor in the prospect of facing the future together in a two-room flat.

Prominent in the supporting cast are Paul Cavanagh, Helen Westley, Billie Burke, David Niven, Katherine Alexander and Ruth Weston. Elliott Nugent handled the megaphone on "Splendor."

EARL OF OXFORD BADLY INJURED

Peer Of 20 Thrown From His Horse

ON O.T.C. MANOEUVRES

(Special Air Mail Service)

Aldershot, July 15. The 20-year-old Earl of Oxford and Asquith received serious injuries to-day when he was thrown from his horse while taking part in the tactical exercises during the operations of the Oxford O.T.C., which is in camp at Tweseldown Camp, near Aldershot.

He was taken to the Cambridge Military Hospital in an unconscious condition; and it was there found that he had sustained a fractured jaw and concussion.

The tactical operations were taking place near Cocked Hat Wood, about a mile from the camp.

THROWN AGAINST TREE

Major Lillington, of the Royal Scots Greys, who is in command of the Cavalry Section of the Oxford O.T.C. told me that Lord Oxford's horse stumbled and threw him against a tree.

Cavalry and infantry sections of the O.T.C. were carrying out combined operations, and few knew of the accident until the cadets returned to camp.

The Earl of Oxford and Asquith, who is at Balliol College, is the only son of the late Raymond Asquith, who was killed in France in 1916, and grandson of Margot, Lady Oxford and Asquith.

He lives at The Manor House, Melis, Frame, Somerset, and Lower Berkeley-street, W.

The Earl has been in camp since last week. The camp breaks up to-morrow.

The Earl's mother, who is the daughter of the late Sir John Horner, left for the hospital on being informed of the accident.

The condition of the Earl of Oxford was stated later at the hospital to be serious. An X-ray examination is being made.

U. S. NATIONAL DEBT

BIGGEST DEFICIT

Three Years Of New Deal

(Special Air Mail Service)

Washington, June 30. The third fiscal year under the New Deal ends at midnight.

The National Debt has increased by an enormous sum and there is a heavy deficit despite a substantial rise in revenue.

The figures, which illustrate what the Republican critics of President Roosevelt describe as the "New Deal carnival of spendings," show:

Treasury deficit of \$942,000,000 for the past year, the biggest every recorded in peace time. Record national debt of \$26,800,000,000, an increase of more than \$2,000,000,000 since the Roosevelt Administration was inaugurated in March, 1933.

Revenue of \$216,000,000, the highest in the country's history apart from the brief post-war period.

Expenditure of \$2,176,000,000, compared with January's estimate of \$1,413,000,000.

To-morrow night the Secretary to the Treasury, Mr. Morgenthau, will make a wireless report to the nation resembling Mr. Chamberlain's now world-famous Budget Day broadcasts. He will announce the final figures for the year based on last-minute telegraphic reports to Washington.

FEARS UNJUSTIFIED

Mr. Morgenthau's gloomy prediction on April 30 to the Senate Finance Committee that the deficit for the year would amount to \$1,193,000,000 was unnecessarily pessimistic.

The deficit, however, is \$296,000,000 more than the estimate made in January before all calculations were thrown out by the Supreme Court's decision that the agricultural processing taxes were illegal, and before Congress approved, despite payment of the veterans' bonus.

Richard Day created the sets and Omar Khan designed the costumes. The film is released through United Artists.

BANK RESERVES INCREASED

Washington, July 14.
The Federal Reserve Board announced a sharp increase in the reserve requirements of its member banks, to become effective after the close of business to-day.

Mr. Marriner Eccles, chairman of the Board, says the action is designed to prevent possible "injurious credit expansion" and to promote confidence in the long-term investment market.

FAR EAST PROBLEMS

CHINA FOR TRADE DEVELOPMENT

Shipowner's Advice To Glasgow Firms

(Special Air Mail Service)

London, June 27.

Ideal ground for the development of all types of engineering was the description given to China yesterday by Major the Hon. Leonard Cripps, a director of Messrs. Alfred Holt & Co., shipowners, in a speech on board the Blue Funnel Line vessel Ulysses at Glasgow.

The shipping company entertained a large number of prominent Glasgow business men to luncheon on board the Ulysses, which was lying at King George V. Dock. At the close of the luncheon Major Cripps spoke on trading conditions in the Far East, from where he has just returned.

JAPAN'S DIFFICULTIES

Tracing the industrial growth of Japan, Major Cripps said that 20 or 40 years ago Japan sent out a number of young men to be educated in other countries. They went to industrial centres, where they were welcomed, and later returned to their own country to set up factories based on the very latest lines. They started off by satisfying their own requirements, but during the war they branched out and began to sell goods that were not being supplied by European or American countries.

These countries were constantly increasing their prices, and the Japanese found it possible to undersell them. They had steadily continued to expand their trade, so that at present the only things they were not competent to produce were very high-powered electrical plant and modern radio sets.

Major Cripps discussed the currency difficulties in which Japan found herself after her entry into general trade, and he said that they had now a much greater difficulty in that they had to increase their army, navy, and air force in order to protect that foreign trade. So far as Japan was concerned, there was little or no chance of this country extending her trade there.

LENDING CHINA MONEY

Dealing with China, the speaker said the only thing China required was credit. She had none at present, due largely to the attitude of Japan. The whole place was one vast intrigue to prevent money being lent to China, and China developed.

Only one country had had the courage to lend money to China—that was Germany. The money had all been lent by individual merchants and guaranteed by German insurance companies. The effect of that was that no Britisher had any chance of ever getting any of the big engineering contracts in China because the Germans could always quote much lower for them. China had a population of between 400,000,000 and 500,000,000, and it was an ideal ground for the development of engineering, electrical, water and lighting schemes, as it was almost wholly undeveloped.

HAMBURG-AMERIKA LINIE

NOTICE TO CONSIGNEES

THE M.V. "SAUERLAND"

having arrived from Hamburg and Ports of call, Consignees of Cargo are hereby notified that their Goods are being landed and placed at their risk into the Godowns of Godown Wharf & Godown Company's godowns at Kowloon, where delivery may be obtained as soon as the Goods are landed.

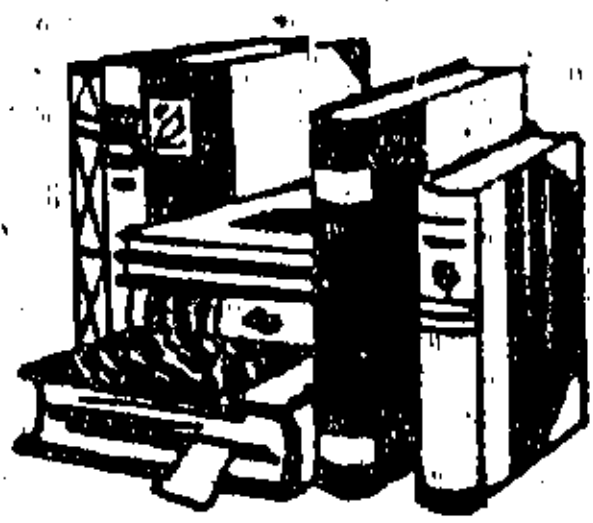

Optional Cargo will not be landed here, unless Notice has been given 48 hours prior to Vessel's arrival, but carried on from port to port to the final port of call to which the option extends.

All broken, chafed and damaged Goods are to be left in the Godowns, where they will be examined on 18th July, 1936, at 10 a.m. by our Surveyors, Messrs. Goddard & Douglas.

Consignees are hereby informed that the Goods with the exception of Opium, Treasure, and Valuables are being landed and stored into the Godowns of Hong Kong, Kowloon Wharf & Godown Co., Ltd., Kowloon, whence delivery may be obtained immediately after landing.

All claims must be sent in to me on or before the 22nd July, 1936, or they will not be recognized.

It seemed to him that the business men of this country ought to take some steps to see whether they could not make up a scheme which would enable them to put a hand into that pie where orders of \$500,000 were not uncommon.
